Talent Show Judging Forms:

One Day for Democracy Mary Lou Nemanic, 2007 Just before the turn of the twentieth century immigrants from eastern and southern Europe who had settled in mining regions of Minnesota formed a subculture that combined elements of Old World traditions and American culture Their unique pluralistic version of Americanism was expressed in Fourth of July celebrations rooted in European carnival traditions that included rough games cross dressing and rowdiness In *One Day for Democracy* Mary Lou Nemanic traces the festive history of Independence Day from 1776 to the twentieth century The author shows how these diverse immigrant groups on the Minnesota Iron Range created their own version of the celebration the Iron Range Fourth of July As mass mediated popular culture emerged in the twentieth century Fourth of July celebrations in the Iron Range began to include such popular culture elements as beauty queens and marching bands Nemanic documents the enormous influence of these changes on this isolated region and highlights the complex interplay between popular culture and identity construction But this is not a typical story of assimilation or ethnic separation Instead *One Day for Democracy* reveals how more than thirty different ethnic groups who shared identities as both workers and new Americans came together in a remote mining region to create their own subculture

Oyster,Jane E. Sloan,2011-02-23 This work includes 1000 entries covering the spectrum of defining women in the contemporary world *I Want to Change My Life* Barrie Gunter,2014-07-24 Competition talent shows have been among the most popular on television in the 21st century The producers of these shows claim to give ordinary people extraordinary opportunities to change their lives by showcasing a specific skill leading to a new career trajectory Most participants will claim that they entered to get a big break and to develop a career they have always dreamed of To what extent do these shows deliver on such promises Following through what happens to leading contestants in singing entertainment modelling cooking and business entrepreneur competitions this book shows that few go on to achieve lasting success in their chosen career Many return to obscurity or to their previous lives Some enjoy a low level career in the new direction delivered by the competition they entered Just a few become truly successful The pop and entertainment themed contests have discovered just a handful of major pop stars and entertainers out of many hundreds who have taken part after the initial auditions Turning to the cookery or business franchises there are few who go on to achieve lasting success in their chosen career In these it is equally likely that the winners go on to enjoy success with media careers rather than as chefs or entrepreneurs The most successful franchise of all is the fashion model competition Next Top Model which has yielded a high hit rate in terms of career success What the analysis here also reveals is that it isn't only the winners who ultimately benefit the most from their appearances in these shows Moreover television picks its own stars by recruiting contestants because they are telegenic or have a good backstory as much as for their relevant talents In this way a talent hungry medium has co-opted these franchises to replenish its own needs Idea Book for Club Managers United States. Adjutant General Center. Club and Community Activities Management Directorate,1979 Exposing Lifestyle Television Gareth Palmer,2016-04-15 In the last decade lifestyle television has become one of the most dominant television genres with certain shows now global brands with formats exploited by producers all over the world What unites these programmes is their belief that the human subject has a flexible malleable identity that can be changed within television friendly frameworks In contrast to the talk shows of the eighties and nineties where modest transformation was discussed as an ideal advances in technology combined with changing tastes and demands of viewers have created an appetite for dramatic transformations This volume presents case studies from across the lifestyle genre considering a variety of themes but with a shared understanding of the self as an evolving project driven by
