5 Edition Sci Fi Dystopia

Tom Moylan, Raffaella Baccolini

5 Edition Sci Fi Dystopia:

Dystopia Gregory Claeys, 2017 *Dystopia A Natural History* is the first monograph devoted to the concept of dystopia Taking the term to encompass both a literary tradition of satirical works mostly on totalitarianism as well as real despotisms and societies in a state of disastrous collapse this volume redefines the central concepts and the chronology of the genre and offers a paradigm shifting understanding of the subject Part One assesses the theory and prehistory of dystopia By contrast to utopia conceived as promoting an ideal of friendship defined as enhanced sociability dystopia is defined by estrangement fear and the proliferation of enemy categories A natural history of dystopia thus concentrates upon the centrality of the passion or emotion of fear and hatred in modern despotisms The work of Le Bon Freud and others is used to show how dystopian groups use such emotions Utopia and dystopia are portrayed not as opposites but as extremes on a spectrum of sociability defined by a heightened form of group identity The prehistory of the process whereby enemies are demonised is explored from early conceptions of monstrosity through Christian conceptions of the devil and witchcraft and the persecution of heresy Part Two surveys the major dystopian moments in twentieth century despotisms focussing in particular upon Nazi Germany Stalinism the Chinese Cultural Revolution and Cambodia under Pol Pot The concentration here is upon the political religion hypothesis as a key explanation for the chief excesses of communism in particular Part Three examines literary dystopias It commences well before the usual starting point in the secondary literature in anti Jacobin writings of the 1790s Two chapters address the main twentieth century texts usually studied as representative of the genre Aldous Huxley's *Brave New World* and George Orwell's *Nineteen Eighty Four* The remainder of the section examines the evolution of the genre in the second half of the twentieth century down to the present

Contemporary Dystopian Fiction for Young Adults

Balaka Basu, Katherine R. Broad, Carrie Hintz, 2013-05-02 Winner of the Children's Literature Association Edited Book Award From the jaded wired teenagers of M T Anderson's *Feed* to the spirited young rebels of Suzanne Collins' *The Hunger Games* trilogy the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings As the dark universes of YA dystopias continue to flood the market *Contemporary Dystopian Fiction for Young Adults* *Brave New Teenagers* offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon With its capacity to frighten and warn dystopian writing powerfully engages with our pressing global concerns liberty and self determination environmental destruction and looming catastrophe questions of identity and justice and the increasingly fragile boundaries between technology and the self When directed at young readers these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood This collection enacts a lively debate about the goals and efficacy of YA dystopias with three major areas of contention do these texts reinscribe an old didacticism or offer an exciting new frontier in children's literature Do their political critiques represent conservative or radical ideologies And finally are

these novels high minded attempts to educate the young or simply bids to cash in on a formula for commercial success This collection represents a prismatic and evolving understanding of the genre illuminating its relevance to children s literature and our wider culture
