Believability Sarah Banet-Weiser, Kathryn Claire Higgins, 2023-04-05. The MeToo movement created more opportunities for women to speak up about sexual assault. But we are also living in a time when fake news and alternative facts call into question the very nature of truth. This troubling paradox is at the heart of this compelling book. The convergence of MeToo and the crisis of post-truth is used to explore the experiences of women and people of color whose claims around issues of sexual violence are often held in doubt. Banet-Weiser and Higgins investigate how the gendered and racialized logics of believability are defined and contested within media culture, proposing that a mediated economy of believability is the context in which public bids for truth about sexual violence are made, negotiated, and authorized today.
