Sustainable Development Law Principles Practices And Prospects:

Sustainable Development Law Marie-Claire Cordonier Segger, Ashfaq Khalfan, 2004 This text provides an important new law and policy perspective to address conflicts and overlaps between social environmental and economic law It is clearly structured with case studies and sources of further information for use in teaching sustainable development law

Sustainable Development Law Marie-Claire Cordonier Segger, Damilola S. Olawuyi, 2025-05-18 Hundreds of new bilateral regional and global treaties have been negotiated in relation to the world's most pressing sustainability development and justice challenges over the past two decades The majority of these face significant implementation challenges At the same time disputes over human rights environmental protection and economic development are increasingly common Sustainable Development Law analyses these advances and challenges in the international law on sustainable development at the intersection between international social environmental and economic law It opens by examining the origins of the concept of sustainable development identifying and discussing the foundations of its legal aspects The principles of international law related to sustainable development are considered based on international instruments and disputes across international courts and tribunals Later chapters provide illustrative examples of legal instruments and regimes that address the 169 targets in relation to the 17 Global Sustainable Development Goals Finally the authors propose cutting edge research agendas and conclude by exploring the limits of sustainable development Sustainable Development Law is designed as a high level textbook examining the nature of law of sustainable development Chapters offer key takeaways and questions to consider for those studying the subject It also would be suitable for practising lawyers and policy makers who want to develop their understanding of the subject area

Sustainable Development Law Marie-Claire Cordonier Segger, 2004 This book analyses recent developments in international sustainable development law ISDL a field emerging at the intersection between international economic environmental and social law Hundreds of new bi lateral regional and global treaties have been negotiated in the areas of trade environment and development over the past two decades yet most of them face profound problems in implementation At the same time disputes over human rights environmental protection and economic development are increasingly common This book provides a coherent approach which addresses conflicts and overlaps between international economic environmental and social law It surveys the international law related to sustainable development discussing proposed principles offering case studies that examine innovative aspects of key international instruments and reflecting on future legal research agendas

Weaving the Rules for Our Common Future : Principles, Practice and Prospects for International Sustainable Development Law Marie-Claire Cordonier Segger, Ashfaq Khalfan, Salim A. Nakhjavani, 2002

The Principle of Sustainability Klaus Bosselmann, 2016-02-24 This book investigates how sustainability informs the universal principles used in domestic and international law It calls for the acceptance of sustainability as a recognized legal principle which could be applied to the entire legal system rather than just environmental

law and regardless of its international or domestic levels To this end the book makes a contribution to a theory of global law by discussing whether as a universally shared concern environmental protection and the principle of sustainability should contribute to the greening of the fundamental principles of law and governance The book will be a valuable resource for students researchers and policy makers working in the areas of environmental law and governance

Sustainable Development in International Law Making and Trade Elisabeth Bürgi Bonanomi, 2015-09-25 This timely book provides an accessible insight into how the concept of sustainable development can be made operational through its translation into legal terms Understood as a multidimensional legal principle sustainable development facilitates coherent international law making Using this notion as an analytical lens on the WTO Agreement on Agriculture the book considers the unresolved question of what a sustainable and coherent agricultural trade agreement could look like

Legal Aspects of Sustainable Development Volker Mauerhofer, 2015-11-26 This book addresses legal aspects of sustainable development and offers the latest thinking on a wide range of current themes By taking a cross cutting approach it adds considerably to the exploration of this emerging scientific field Twenty nine original contributions present innovative thoughts and replicable ideas from this exciting new area which will be of value to practitioners and researchers alike These contributions are allocated into a horizontal and sectorial part The section covering horizontal policies has five sub parts 1 general aspects 2 human and intellectual property rights 3 communication and social enterprise governance 4 public participation and 5 assessment tools The second part on sectorial policies also has five sub parts 1 forest and water management 2 renewable energy 3 cities waste and material management 4 biodiversity nature conservation oceans and spatial planning and 5 agriculture and rural policy It offers a multifaceted discussion of sustainable development and law by authors from five continents and from both the public and the private sectors This selection guarantees a broad view that presents the more theoretical arguments from the academic as well as the practical perspective Furthermore the authorship includes senior highly experienced academics and practitioners as well as those at the start of their career This ensures thoughtful expansions of established theories as well as the emergence of innovative ideas Moreover the ten sub parts bring together likeminded thoughts resulting in an exchange of different viewpoints on a similar theme This allows the readers to concentrate on individual chapters while at the same time discovering a variety of thoughts and ideas

Sustainable Development As a Principle of International Law Christina Voigt, 2009 This volume provides a framework for the doctrinal foundation of sustainable development as a principle of integration in international law The work departs from the fragmented nature of the international legal system a system that lacks integrative principles for creating coherent relations between for example the international trade regime of the WTO and multilateral environmental agreements The specific focus is on a legal analysis of potential normative conflicts between climate measures as regulated by the UNFCCC and the Kyoto Protocol in particular the flexibility instruments of international emissions trading and the Clean Development Mechanism and the rules of the WTO Attention is then given to

the application of sustainable development as a principle of integration in relation to these conflicts The book takes on several important timely and demanding tasks related to the urgent global challenge of climate change and the capacity of international law to deal with complex and multifaceted issues It addresses in particular a The relations between various international legal regimes especially between international trade law and climate law a The legal status of sustainable development as a principle of international law and a The analysis of interpretative methods and of principles that may serve to address conflicts between rules pertaining to different legal regimes Here integration as part of legal reasoning becomes particularly relevant

Research Handbook on Investment Law and Sustainable Development Marie-Claire Cordonier Segger, Ted Gleason, Sean Stephenson, 2025-04-09 This cutting edge Research Handbook examines how investment law and policy can foster or frustrate sustainable development goals and accords Expert authors explore opportunities for environmental social and economic rules to shape international investment flows advancing global sustainability and justice

Sustainable Development in World Trade Law Markus W. Gehring, Marie-Claire Cordonier Segger, 2005-01-01 In Johannesburg at the World Summit on Sustainable Development in 2002 over one hundred and eighty states assumed a collective responsibility to advance and strengthen the interdependent and mutually reinforcing pillars of sustainable development economic development social development an environmental protection at the local national regional and global levels This remarkable collection of papers sponsored by the Centre for International Sustainable Development Law CISDL demonstrates that sustainable development serves as a unifying concept with the potential to facilitate much needed respect for international law and timely implementation of diverse and overlapping international commitments It builds on the substance of a rich and complex debate at the intersections among economic social and environmental law bringing together a broad cross section of viewpoints and voices The authors review recent developments in WTO discussions and negotiations and in the recent decisions of the WTO Appellate Body from a sustainable development law perspective They also survey relevant new developments in trade and economic agreements at regional inter regional and bi lateral levels The various essays focus on sustainable development aspects of key issues in recent trade negotiations such as the Singapore Issues investment competition trade facilitation and government procurement intellectual property rights investment arbitration and the linkage between the WTO and multilateral environmental accords MEAs and s Among the specific topics covered are the following Emerging areas of law and policy in trade and sustainable development The underlying development agendas in global trade law negotiations Cooperation and potential negotiation on international competition law Sustainable development aspects of intellectual property rights negotiations Overlaps between multilateral environmental accords MEAs and s and the WTO Recent developments in WTO dispute settlement procedures and proceedings Human rights and environmental opportunities from trade liberalisation and increased market access Human rights and environment impact assessment techniques used to analyse trade agreements Recent developments in bi lateral and regional trade agreements

Trade investment and competition law practitioners and negotiators in developed and developing countries will find this book of great value as will development and environment law professionals with responsibility for trade and WTO law related matters With rich contributions from leading trade law practitioners academics and WTO panel and appellate body roster members Sustainable Developments in World Trade Law offers a constructive timely and accessible expert analysis of recent discussions and advances in the field providing an integrated and essential guide to some of the most important issues in international economic law today
