of collective unconsciousness Davide Appi,2022-10-29 CONSCIOUSNESS OR SUPERCONSCIOUSNESS THIS IS THE DILEMMA The present society continues to run like a mad elephant toward global catastrophe Why do we continue on this road that leads us to a dead end with end view our own self destruction The answer to this question lies in human consciousness itself the cause of every problem while Superconsciousness is the solution to every difficulty What is the difference between consciousness and Superconsciousness Superconsciousness consciously connects us with everything that

exists and to understand it better we can make the analogy of a network everything in existence is like a node that can have the illusion of being separate from the rest of the network Most people are like that they feel like a node separated from the rest like a single individual separated from the rest of Humanity This feeling of separation is the mode in which consciousness operates CONSCIOUSNESS OR SUPERCOSCIENCE THAT IS THE DILEMMA The present society continues to run like a mad elephant toward global catastrophe Why do we continue on this road that leads us to a dead end with end view our own self destruction The answer to this question lies in human consciousness itself the cause of every problem while Superconsciousness is the solution to every difficulty What is the difference between consciousness and Superconsciousness Superconsciousness consciously connects us with everything that exists and to understand it better we can make the analogy of a network everything in existence is like a node that can have the illusion of being separate from the rest of the network Most people are like this feeling like a knot separated from the rest like a single individual separated from the rest of Humanity This feeling of separation is the mode in which consciousness operates So it is normal for a world dominated by consciousness to be in perpetual conflict consciousness can only do so much by being a principle of division and separation And as long as it is the same that decides both our personal and Humanity s fate we will always be at risk of self destruction We can even say The very nature of consciousness directed toward separation and competition can only inevitably lead us into conflict with others It is the very nature of ordinary consciousness that leads us to violence and war Superconsciousness knows that it is both the node and the global network itself at the same time so it knows that it is deeply connected and interconnected to the Whole while consciousness thinks it is a node unto itself separate from the rest of the network Superconsciousness thus opens us to a wider reality than that of ordinary consciousness and we get a taste of it in moments of deep Inner Peace when the silent mind allows us to enjoy to the fullest the spectacle of the present moment Why is consciousness on the world s bridge of command and Superconsciousness all but ignored Superconsciousness is something unpredictable and original capable of subverting the established order The emergence on this planet of a minimum sufficient number of awakening Superconsciousnesses is the greatest nightmare for the system and for the Anti Awakening Dark Powers that rule the world This is the problem the ruling elites do not want Superconsciousness awakening because it would put an end to their millennial earthly Power Only by electing Superconsciousness as the Supreme Commander of human life will it be possible to change human destiny and put the extraordinary scientific progress implemented by consciousness no longer at the service of consciousness itself in command which we might rather describe as unconsciousness ruling the world but to put technological progress at the service of Superconsciousness the only one capable of fostering development that is healthy sensible and truly aimed at the welfare of H Translator Nikkita PUBLISHER TEKTIME *Philosophy, Technology, and the Environment* David M.
