African Foreign Policies in International Institutions Jason Warner,Timothy M. Shaw,2018-05-18 This book is the first to exclusively consider the foreign policy tendencies of African states in international institutions As an edited volume offering empirically based perspectives from a variety of scholars this project disabuses the notion that Africa should be considered a niche interest in the field of foreign policy analysis It asserts that the actions of the continent s states collectively serve as an important heuristic by which to interrogate and understand the foreign policies of other global states and are not simply anomalously extant entities whose actions should be studied only insofar as they deviate from predictions based on the experiences of Western or other non African states

Good International Citizenship and Non-Western International Relations Charalampos Efstathopoulos,Hakan Mehmetcik,2025-09-26 This is the first book to apply the concept of good international citizenship to the international relations of the Global South The edited book introduces good international citizenship as a theoretical framework for analysing a diversity of agencies across the Global South It covers different cases of non Western states global governance foreign policy and international law and examines how non Western actors enact ideas of good international citizenship to engage and shape the global order The book shows how good international citizenship is not limited to Western notions of liberal internationalism but also encompasses the efforts of non Western actors to promote distinct approaches to ethics morality responsibility and leadership The book contributes theoretically and empirically to the field of non Western International Relations It allows for rethinking established International Relations concepts so that these become more inclusive to the histories and experiences of different actors across the globe

Values, Interests and Power: South African foreign policy in uncertain times Daniel D. Bradlow,Elizabeth Sidiropoulos,2020-01-01 About the publication South Africa s foreign policy makers are facing a substantial challenge From the advent of the democratic era in 1994 through to the early 2000s South Africa was a highly

respected actor in international affairs with a number of impressive accomplishments in the areas of global governance peacekeeping and international norm entrepreneurship However since that time the country s international standing has declined The value based and innovative foreign policy that earned the early post apartheid South African government such great international respect has been replaced by a more transactional and tactically driven approach to international affairs The country s position as Africa s leading economy and voice in international affairs is increasingly being challenged by other African states This book explores how South Africa can develop a foreign policy strategy that is appropriate to the uncertain times in which we live and that both helps the country address its overwhelming domestic challenges of poverty inequality and unemployment and regain its former high international reputation The contributors to this book offer analyses and proposals for developing such a strategy within the context of the country s constitutional order and institutional constraints and that addresses the diverse and complex global and regional aspects of the country s international relations

Endorsements In this valuable book which should be on every diplomat s bookshelf some of SA s foremost experts offer the government frank and compelling advice on how to conduct a much better foreign policy over the next decade The authors challenge Pretoria to muster all the country s assets and skills and not just those of the ruling party to pursue only the most important foreign policy goals And to be guided always by the lodestar of the Constitution Peter Fabricius Foreign Policy Analyst former Foreign Affairs Editor at Independent Newspapers In this one of a kind book of twelve chapters by emerging and experienced scholars the authors probe into factors shaping South African foreign policy lessons learned and the future strategy of the country s foreign policy in an ever changing world A compelling read for policy makers and scholars

and the regional powers bid for greater voice in global governance By illuminating the sources and effects of power politics in five regions that are increasingly pivotal for the emerging world order the volume offers a global comparative analysis of contemporary regional contested leadership that will interest scholars and students of international affairs foreign policy and area studies **South African Foreign Policy Review** Lesley Masters,Jo-Ansie Van Wyk,2019 The BRICS and

Coexistence Cedric de Coning,Thomas Mandrup,Liselotte Odgaard,2014-09-15 The grouping consisting of Brazil Russia India and China BRIC was initially meant to be nothing more than clever investment jargon referring to the largest and most attractive emerging economies However these countries identified with the BRIC concept and started to meet annually as a group in 2008 At their fourth summit in 2011 they added South Africa to become the BRICS By then the BRICS had fully morphed from investment jargon to a name for a new economic and political grouping that had the potential to challenge the unipolar hegemony of the United States and its Western allies This work analyses the extent to which the concept of coexistence explains the individual foreign policies of the BRICS countries The editors define coexistence as a strategy that promotes the establishment of a rule based system for co managing the global order It recognizes that different states may legitimately pursue their own political and economic interests but they have to do so within the bounds of a rule based international system that ensures the peaceful coexistence of states The BRICS and Coexistence addresses the political dimension of the emergence and influence of the BRICS in the international system and will be of interest to students and scholars of Politics Development and International Relations Thinking Globally About World Politics: Beyond Global IR Pinar Bilgin,Karen Smith,2024-07-13 This book asks what it means to think globally about world politics In an attempt to contextualise the recent globalising turn in International Relations IR it takes stock of more than 30 years of efforts at addressing IR s Eurocentric limitations and explores what thinking globally means in practice through focusing on the study of international security and foreign policy The authors offer thinking globally about world politics not as an alternative to but as a critical engagement with IR It involves curiosity about what others think about the world making a sustained effort to locate the knowledge they have produced and recognising past and present contributions to what we otherwise view as European ideas practices and institutions Rather than focusing on abstract debates about the state of the discipline the aim is to provide researchers with the conceptual tools to think globally and design their own research projects

Parliamentary Diplomacy in European and Global Governance Stelios Stavridis,Davor Jancic,2017-02-06 In Parliamentary Diplomacy in European and Global Governance 27 experts from all over the world analyse the fast expanding phenomenon of parliamentary diplomacy Through a wealth of empirical case studies the book demonstrates that parliamentarians and parliamentary assemblies have an increasingly important international role The volume begins with parliamentary diplomacy in Europe because the European Parliament is one of the strongest autonomous institutional actors in world politics The study then examines parliamentary diplomacy in relations between Europe and third countries or

regions Mexico Turkey Russia the Mediterranean before turning attention to the rest of the world North and South America Asia Africa and Australia This pioneering volume confirms the worldwide nature and salience of parliamentary diplomacy in contemporary global politics

Understanding Soft Power in Africa Oluwaseun Tella, 2025-10-21 Negative images of Africa which define the continent as being riven with poverty crime or war are increasingly being challenged Examples of soft power such as Nigeria s Nollywood athletic successes in Kenya Rwanda s commercial diplomacy and South Africa s liberal constitution are all reasserting African agency and shaping more positive understandings of the continent This book considers the role and impact of soft power in the African context and how it relates to the 21st century scramble for Africa Bringing together leading scholars in the field this book delves into various aspects of soft power in Africa shedding light on how the continent s attractiveness is shaped by soft power in the continent s biggest states the small states and also the regional organisations such as the African Union AU Economic Community of West African States ECOWAS Southern African Development Community SADC and East African Community EAC The book then goes on to assess the ways in which great powers most notably China the United States the United Kingdom Brazil and France are themselves deploying soft power in Africa in order to vie for influence resources and strategic advantages

African studies and cultural studies as well as for African policymakers *South African Foreign Policy Review* Lesley Masters, Jo-Ansie van Wyk, Philani Mthembu, 2022-09-25 Non-State Actors and Foreign Policy Agency Marianna Charountaki, Christos Kourtellis, Daniela Irrera, 2024-03-19 This edited volume discusses non state actors as agents of foreign policy It questions whether non state actors can act as foreign policy makers and if the contemporary role of non state actors constitutes a theoretical challenge to foreign policy Chapters demonstrate the impact of non state entities through the lenses of their direct role as decision makers with examples drawn from the African continent the Middle East Europe and Asia Arguing for the necessity of approaching foreign policy in a broader frame beyond the scope of the state and the individual the book fills a gap in the literature and creates a closer nexus between area studies and foreign policy This volume will be of interest to both academics and practitioners across the fields of international relations foreign policy analysis and area studies *5TH SEA POWER FOR AFRICA SYMPOSIUM 2024* Captain (SAN) M. Blaine (ret), Captain (SAN) G. Plint, 2025-06-11 I was honoured to chair the Admiral s Panel at the SPAS 2024 Symposium which took place at the CITCC Cape Town South Africa Marked by a significantly high African Naval presence SPAS24 discussed contemporary maritime security challenges to foster collaboration between practitioners policymakers industry and academia As reflected in the final outcomes SPAS24 served as a catalyst for actionable ideas while laying the foundation and synergy for a dynamic SPAS 2025 in Nigeria Ambassador Nancy Karigithu Special Envoy for Kenya s Maritime and Blue Economy It was an honour to take part in African Sea Power 2024 in Cape Town South Africa The event was successful in cementing the participants individual and collective conviction of the importance of the sea for Africa s survival and prosperity Admiral Valentim Alberto Ant nio Angolan Navy Commander *New Zealand Foreign Affairs Review* , 1972 The BRICS Order David Monyae, Bhaso Ndzendze, 2021-02-08 This book examines the direction of the BRICS association Beginning with historical analyses of the broader Global South and the fundamental composition of the BRICS countries and then moving on to present trends The BRICS Order evaluates the variables that will influence the association s future While the BRICS as a forum emerged as a result of the visible fragmentation of the post 1945 world order it itself remains dogged by issues emanating from internal divergences among member states and from external factors The contributors interrogate the extent to which this formation of emerging economies is indicative of a challenge to the West or in fact a complimentary relation Integral to these studies which encompass examinations of such diverse areas as governance systems issues in bilateral relations security threats multilateral institution building the transnational creation and dissemination of knowledge and technological innovation are patterns of convergence and divergence which render the countries not a formal alliance but as signifiers of a multilateral future in which the West is itself to become more heterogeneous and thus become occasionally complemented depending on the vacillating consensus within the BRICS association and on the interests of the BRICS countries at different points in time **Post-conflict Reconstruction and Development in Africa** Theo Neethling, Heidi Hudson, 2013-10-01 Some of the

bloodiest conflicts occur on the African continent An Afrocentric perspective is therefore a suitable starting point for research into the possible strategies for post conflict peacebuilding The authors of this book consider the problems around the concept of post conflict and the blurring of military and civilian roles analysing the UN roles in the DRC and Sierra Leone as well as the African Union Mission in Burundi The main context of the book however is the South African Army s strategy for PCRD in Africa which was developed with the African Union s 2006 Post Conflict Reconstruction and Development Needs Assessment Guide in mind This book emanates from this plan It therefore also explores South Africa s policy imperatives to integrate development projects and peace missions involving the military as well as civilian organisations While this book is not intended as an instruction manual it hopes to ignite an understanding of the particular processes required to develop a sustainable and cohesive post conflict peacebuilding strategy within the African environment

South African Foreign Policy Review - Lesley Masters,2015 **Africa's Lost Leader** James Hamill,2019-08-08 When Nelson Mandela was sworn in as president on 10 May 1994 South Africa enjoyed an unprecedented global standing Much of the international community particularly Western states saw the new South Africa as well equipped to play a dynamic and dominant role on the continent promoting conflict resolution economic development and acting as a standard bearer for democracy and human rights Yet throughout the presidencies of Nelson Mandela Thabo Mbeki and Jacob Zuma South Africa has failed to deliver on this early promise Its continental primacy has been circumscribed by its own reluctance to lead combined with widespread African hostility to its economic expansion antipathy towards its democratic ideals and scepticism about its suitability as Africas global representative With an onerous domestic agenda as it continues to tackle the profound socio economic legacies of apartheid and with its military power also on the wane South Africa must now adapt to an emerging multipolarity on the continent This transition which may produce a new concert of African powers working in constructive collaboration or lead to fragmentation discord and gridlock is likely to determine Africas prospects for decades to come This Adelphi book squarely challenges the received wisdom that South Africa is a dominant power in Africa It explores the countrys complex and difficult relationship with the rest of the continent in the post apartheid era and examines the ways in which the country has struggled to translate its economic military and diplomatic weight into tangible foreign policy successes and enduring influence on the ground The conclusions of this book will be valuable to academics policymakers journalists and business leaders seeking to understand the evolution and trajectory of South African policy in Africa
