Framework Space Opera Saga:

The Excalibur Knights Saga Omnibus Luke Mitchell, 2022-10-21 This isn't your grandma's King Arthur story. Nate Arturi isn't a knight in shining armor. He sure as hell isn't a king. The last time someone called him heroic it was because he fetched his neighbor's corgi off the roof. But when an ancient alien beacon awakens on Earth, sounding the call to enemies near and far, the Merlin is left with little choice. Ambushed by a hulking alien brute and tricked into accepting a foul-mouthed sword from a homeless wizard, Nate suddenly finds his senior year at Penn State more than a little out of hand. But when an armada of butt-ugly troglodans and exotic gorgon killers starts raining from the sky, one thing becomes inescapably clear: Unless he mans up and gets that damned beacon off of his planet, everything he knows is about to be burned to a crisp. And that's only the beginning of the galaxy's problems. Welcome to the Excalibur Knights Saga, a sprawling Arthurian space opera that follows the rise of Ser Nathaniel Arturi from reluctant and frankly terrible hero to the stuff of legends. If you love action-packed science fiction, snarky AI companions, and radical character growth, then secure your crash couches and prepare for 1800 pages of epic sci-fi adventure. Included in the set: *The Eighth Excalibur*, Book 1, *The Black Knight*, Book 2, *Spoils of War*, Book 3. Plus the following Excalibur Knights shorts, novelette, and serial: *Flight of the Huntress*, *The Last Good Boy*, *The Complete Meyerwitz Logs*, *The Leftovers*, Parts 1-4. [Dawn Saga Box Set](#) Zachariah Wahrer, 2019-04-10 Desperate to restore their once majestic place amongst the stars, humanity seizes every planet within reach. Under the control of an aging galactic empire, xenocide is routine. For most, the Akked Galaxy is a grim, hopeless place. Dispatched to subdue a separatist uprising, a government operative unearths an ancient relic. It somehow knows everything about him, even his darkest secrets. The strange device promises extraordinary power, but can he trust it? A small group of diverse survivors, both human and alien, are led to a backwater planet by a vague prophecy. It declares they are the only ones capable of stopping the impending apocalypse. Before they can learn more, the peaceful world is thrust into chaos. Can they hold back the menacing darkness? The four-book Dawn Saga intertwines multiple viewpoints into an epic sci-fi tale exploring human nature, evolution, and the future. If you enjoy *Dune*, *The Expanse*, or *Ender's Game*, you'll love the Dawn Saga. _____ What readers are saying about the Dawn Saga books: Very entertaining, very enjoyable. Recommended. Among the Scientologists Donald A. Westbrook,2019 The Church of Scientology is one of the most recognizable American born new religions but perhaps the least understood With academic and popular interest on the rise many books have been written about Scientology and surely more will follow Although academics have begun to pay more attention to Scientology the subject has received remarkably little qualitative attention Indeed no work has systematically

addressed such questions as what do Scientologists themselves have to say about their religion's history, theology and practices. How does Scientology act as a religion for them? What does lived religion look like for a Scientologist? This is not so much a book about the Church of Scientology, its leaders or its controversies as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves. Drawing on six years of interviews, fieldwork and research conducted among members of the Church of Scientology, this groundbreaking work examines features of the new religion's history, theology and praxis in ways that move discussion beyond apostate-driven and expos accounts.

Vader, Voldemort and Other Villains Jamey Heit, 2014-01-10. What is evil? How do we understand it in our culture? The thirteen essays in this critical volume explore the different ways in which evil is portrayed in popular culture, particularly film and novels. Iconic figures of evil are considered, as is the repeated use of classic themes within our intellectual tradition. Topics covered include serial killers in film, the Twilight series, the Harry Potter series, Star Wars and more. Collectively, these essays suggest how vital the notion of evil is to our culture, which in turn suggests a need to reflect on what it means to value what is good.

Gaming and Geography Michael Morawski, Sebastian Wolff-Seidel, 2024-09-25. This book explores the uncharted territory where gaming and geography intersect in *Gaming and Geography Education*. This book bridges the gap between video games and geography, delving into the constructivist, creative processes of game development, gameplay and critical reflections on video games' role in geographical discourses. Through a multi-perspective lens, the book examines how video games can facilitate the exploration of geographic questions and act as catalysts for critical discourses. Scholars shed light on the geographies presented in video games, including their representations, spatial images and policies. By viewing video games as cultural and critical geography practices, the authors enrich the political, socio-cultural and critical geographies associated with this medium. A key argument of the book is that video games can foster systemic competence and networked thinking, particularly in addressing complex socio-ecological challenges like climate change and migration. In contrast to traditional geography classes, digital games provide valuable simulations of complex systems, enhancing students' understanding and skills. The book also explores other possibilities such as digital field trips and language support to enhance the educational experience. *Gaming and Geography Education* offers a compelling narrative that highlights the diverse roles video games can play in geographic education. By exploring the intersection of gaming and geography, this book deepens our understanding of this dynamic relationship and its impact on critical geographies within the realm of video games.
