Hearings United States. Congress Senate, 1954 The Home Monthly , 1862 Chinese Social Networks in an Age of Digitalization Anson Au, 2023-12-01 *Chinese Social Networks in an Age of Digitalization* investigates the impact of digital media on the traditional Chinese model of social interaction trust building and social capital known as guanxi Guanxi is a system of cultural and psychological rules of networking that orders every interaction in China from the labor market to politics to business and even law It is the lifeblood of the nation and nearly just as old But how has guanxi kept pace with the modern rapids of digitalization This book is the first to examine how the rise of social networking sites is transforming guanxi in everyday networking in China home to the largest population of users worldwide and nearly universal adoption in the

nation This monograph argues that digitalization is making guanxi liquid that social and geographical boundaries are being melted away and with it people are experiencing a newfound liberation in how they network trust and feel toward others Au asserts that Chinese modernity itself is transforming into what it calls a digital agora a new intermediary space between the public and private spheres that balances obligations to both realms The book offers researchers and students a window into how digitalization is changing how people in guanxi fundamentally think about who to trust how to interact and compose themselves and what it takes to socially survive in a rapidly advancing age of digitalization *The Marketing You Never Knew* Willem Burgers, 2005 Written by a marketing and strategy teacher this book proves there is tremendous room for improvement in marketing for any company The practical eye opening and immediately useful information will affirm that you don't know as much as you think you know to maximize your marketing success
