How to Write a Novel in 90 Days Conrad Jones, 2013-10-21. This concise guide tells you how to write a novel by using a systematic approach to writing. This guide is written by an author, not a guru. A simple step-by-step breakdown of how to plan each day. No fillers and no theory, just the hard facts in a concise guide. There are many guides about writing novels on the market, but how many of them are written by prolific published authors? The answer is not many. How can anyone write a guide unless they have been through the writing process many times before? The simple answer to this question is they can't, because they cannot feed on their own actual experiences to help another writer to avoid the mistakes and pitfalls. Most guides regurgitate information which they have picked up from creative writing books or sites. How can they give you advice when they have never sat down and focused on creating a novel which will sell many times over? Writing a novel is the same as any other task we undertake as individuals. We have to learn how to do it in order to do it well. When you first learn to drive, you need lessons. No one walks into the kitchen and creates a gourmet dish on their first attempt. If you want a system to apply to writing a book, then you need to take advice from an author who has taken years to develop the process via experience.

The Audience and Business of YouTube and Online Videos Louisa Ha, 2018-06-06. The Audience and Business of YouTube and Online Videos is a thorough analysis of YouTube audiences and creators of online videos that considers how the coexistence of user-generated and professional media content on YouTube makes the site a unique platform in the ever-expanding online video industry. Using a mixed-method approach, the authors examine the underexplored business side of YouTube with a focus on product review videos, brand videos, sponsored videos, and online video advertising. This book also addresses recent developments such as YouTube Red, subscription pay-TV, and movie services, and discusses the future of online video audience research. Recommended for scholars interested in media studies, communication, marketing, and popular culture.
