How To Reach Influencers

The Book Marketer, 2022-08-31 Ready to sell more books Reach out to influencers and get that exposure you need

Influencers are an excellent way to get a lot of exposure for your book There are many ways for authors to reach out to influential people and get their books promoted This book will show the tips and tricks to reach the people who have a lot of clout in the world of online book promotion Using social media platforms like Twitter Instagram or Tik Tok can get your books seen by an audience of hungry readers We look at the most effective influencer networking sites available and bring you insights from influencers and a social media growth coach on how you can build your own influence Buy the book find an influencer and send them a proposal today Indexing 'Chav' on Social Media Emilia Di Martino,2022-09-15 The book sets out to examine the concept of chav providing a review of its origins its characterological figures the process of enregisterment whereby it has come to be recognized in public discourse and the traits associated with it in traditional media representations The author then discusses the chav label in light of recent re appropriations in social network activity particularly through the video sharing app TikTok and subsequent commentary in the public sphere She traces the evolution of the term from its use during the first decade of the twenty first century to make sense of class status and cultural capital to its resurgence and the ways in which it is still associated with appearance in gendered and classed ways She then draws on recent developments in linguistic anthropology and embodied sociocultural linguistics to argue that social media users draw on communicative resources to perform identities that are both situated in specific contexts of discourse and dynamically changing challenging the idea that geo sociocultural varieties and mannerisms are the sole way of indexing membership of a community This volume contends that equating chav with underclass in the most recent uses of the concept on social networks may not be the whole story and the book will be of interest to sociocultural linguistics and identity researchers as well as readers in anthropology sociology British studies cultural studies identity studies digital humanities and sociolinguistics Virtual Identities and Digital Culture Victoria Kannen,Aaron Langille,2023-02-28 Virtual Identities and Digital Culture investigates how our online identities and cultures are embedded within the digital practices of our lives exploring how we form community how we play and how we re imagine traditional media in a digital world The collection explores a wide range of digital topics from dating apps microcelebrity and hackers to auditory experiences Netflix algorithms and live theatre online and builds on existing work in digital culture and identity by bringing new voices contemporary examples and highlighting platforms that are emerging in the field The book speaks to the modern reality of how our digital lives have been forever altered by our transnational experiences one of those key experiences is the pandemic but so too is systemic inequality questions of digital privacy and the role of joy in our online lives A vital contribution at a time of significant social and cultural flux this book will be highly relevant to those studying digital culture within media communication cultural studies digital humanities and sociology departments **The Digital Future of English** Simone Murray,2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book s imminent demise presented a simplistic either

or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology's impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future
