The Narrative Discourse An Essay In Method:

Narrative Discourse Gérard Genette,1980 Genette uses Proust's Remembrance of Things Past as a work to identify and name the basic constituents and techniques of narrative Genette illustrates the examples by referring to other literary works His systemic theory of narrative deals with the structure of fiction including fictional devices that go unnoticed and whose implications fulfill the Western narrative tradition **Narrative Discourse** Gérard Genette,1987 *Narrative Discourse* Gérard Genette,1980 Om litteratur fortælle teknik med udgangspunkt i Marcel Proust's Proust efter den tabte tid *Narrative Discourse* Gérard Genette,1980-01 Deals particularly with Proust **Narrative discourse : an essay in method** ,1981

Truth, Beauty, and Goodness in Biblical Narratives Krzysztof Sonek,2009 The book proposes a hermeneutical theory which uses modern approaches to literary texts for the exegesis of biblical narratives This theory is then applied to the exegesis of Genesis 21 1 21 and involves the evaluation of the New Criticism rhetorical criticism structuralism and narrative analysis reader response criticism the historical critical method as well as deconstruction To satisfy the postulate of pluralism in interpretation the theory draws upon a variety of ancient and modern sources such as Aristotle T S Eliot Hans Urs von Balthasar and Paul Ricoeur *The Cambridge Companion to Narrative Theory* Matthew Garrett,2018-11-01 Narrative theory is essential to everything from history to lyric poetry from novels to the latest Hollywood blockbuster Narrative theory explores how stories work and how we make them work This Companion is both an introduction and a contribution to the field It presents narrative theory as an approach to understanding all kinds of cultural production from literary texts to historiography from film and videogames to philosophical discourse It takes the long historical view outlines essential concepts and reflects on the way narrative forms connect with and rework social forms The volume analyzes central premises identifies narrative theory's feminist foundations and elaborates its significance to queer theory and issues of race The specially commissioned essays are exciting to read uniting accessibility and rigor traditional concerns with a renovated sense of the field as a whole and analytical clarity with stylistic dash Topical and substantial The Cambridge Companion to Narrative Theory is an engaging resource on a key contemporary concept [Narrative Discourse Revisited](#) Gérard Genette,1988 In *Narrative Discourse Revisited* Genette both answers critics of the earlier work and provides a better defined richer and more systematic view of narrative form and functioning This book not only clarifies some of the more complex issues in the study of narrative but also provides a vivid tableau of the development of narratology over the decade between the two works **Paratexts** Gerard Genette,1997-03-13 Paratexts are those liminal devices and conventions both within and outside the book that form part of the complex mediation between book author publisher and reader titles forewords epigraphs and publishers jacket copy are part of a book's private and public history In this first English translation of *Paratexts* Gerard Genette shows how the special pragmatic status of paratextual declaration requires a carefully calibrated analysis of their illocutionary force With clarity precision and an extraordinary range of reference *Paratexts* constitutes an

encyclopedic survey of the customs and institutions as revealed in the borderlands of the text Genette presents a global view of these liminal mediations and the logic of their relation to the reading public by studying each element as a literary function Richard Macksey's foreword describes how the poetics of paratexts interact with more general questions of literature as a cultural institution and situates Genette's work in contemporary literary theory *Routledge Encyclopedia of Narrative Theory* David Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource
