Nagler, 2020-03-31 In the latest fruit of a brilliant

career Michael Nagler argues that nonviolence not just as a tactic but as a way of being is the only way to unite deeply divided people and enable progressive movements and leaders of all stripes to fulfil their promise and potential So many of the problems that beset us war poverty isolation and the climate crisis have their roots in an old story about the universe we are purposeless matter in a random void and scarcity competition and violence are inevitable Citing the convergence of modern science and the essence of the world's wisdom traditions Michael Nagler argues for a new story the universe is conscious and purposeful humans are spiritual beings and cooperation and collaboration are our natural way of interacting This new story has had other champions but Nagler is the first to realize that a piece is missing For the new story to take

hold we have to embrace nonviolence not only as a social change tactic but as a way of life Nonviolence is the only power strong enough to move the heart toward this deep and revolutionary change in worldview Nagler refers to this as the third harmony which is the harmony within and among us to resolve the crisis of the human image Calling on us to realize the urgency of nonviolence for resolving our personal and collective problems Nagler focuses on how to shift to our story on a personal everyday level and then integrate it into the very foundations of our understanding of humanity and community for our sake for the sake of future generations and the sake of nonviolence itself **Towards a Just and Ecologically**

Sustainable Peace Joseph Camilleri, Deborah Guess, 2020-08-13 This book addresses the need to develop a holistic approach to countering violence that integrates notions of peace justice and care of the Earth It is unique in that it does not stop with the move toward articulating Just Peace as a human concern but probes the mindset needed for the shift to a Just and Ecologically Sustainable Peace It explores the values and principles that can guide this shift theoretically and in practice International in scope and grounded in the reality of Indigenous and non Indigenous Australia and the wider Asia Pacific context the book brings together important insights drawn from the Indigenous relationship to land ecological feminism ecological philosophy the social sciences more generally and a range of religious and non religious cosmologies Drawn from diverse disciplinary backgrounds the contributors in this book apply their combined professional expertise and active engagement to illuminate the difficult choices that lie ahead **The Nonviolent Apocalypse** Jeffrey D. Meyers, 2021-11-08

Revelation is resistance literature written to instruct early Christians on how to live as followers of Jesus in the Roman Empire The Nonviolent Apocalypse uses modern examples and scholarship on nonviolence to help illuminate Revelation s resistance arguing that Revelation s famously violent visions are actually acts of nonviolent resistance to the Empire The visions form part of Revelation s proclamation of God s way as a just and life giving alternative to the system constructed by Rome Revelation urges its readers to pursue this radical form of living engaging in nonviolent resistance to all that stands in the way of God s vision for the world **A Fiction Writer's Guide to Peace** Gabriel Ertsgaard, 2025-06-26

Superhero violence and graphic action sequences are prevalent on the screen and on the page but this book takes an alternative route with practical guidance frameworks and tools for incorporating the principles of peacebuilding and nonviolence into compelling fiction By mapping a path less travelled but just as vital in divisive times Gabriel Ertsgaard shows writers how they can enact nonviolent heroism in their characters model civil resistance in their stories and create worlds around a mythos that champions redemptive nonviolence With concepts applicable to writing for fiction drama the screen and narrative poetry A Fiction Writer s Guide to Peace deconstructs the necessity for violence in popular works explores key concepts in peace studies and helps writers establish their own peace poetics Focused around the narrative craft techniques of character arcs campaigns duels and worldbuilding the book features numerous creative writing prompts and examples from key works These include films such as Trading Places Selma Lage Raho Munna Bai and Frozen and literature ranging

from Shakespeare's plays to Dickens' *A Christmas Carol* to Julia Quinn's *Bridgerton* novels. A timely and important expansion to any writer's toolkit. *A Fiction Writer's Guide to Peace* allows storytellers to understand the complex dynamics of and the damage caused by violent perspectives and actions, giving them a way into considering nonviolence as powerful and preferable.

Reconstructing Nonviolence Roberto Baldoli, 2018-09-03 Nonviolent methods of action have been a powerful tool since the early twentieth century for social protest and revolutionary social and political change, and there is diffuse awareness that nonviolence is an efficient spontaneous choice of movements, individuals, and whole nations. Yet from a conceptual standpoint, nonviolence struggles to engage with key contemporary political issues: the role of religion in a post-secular world, the crisis of democracy, and the use of supposedly nonviolent techniques for violent aims. Drawing on classic thinkers and contemporary authors, in particular the Italian philosopher Aldo Capitini, this book shows that nonviolence is inherently a non-systematic and flexible system with no pure, immaculate thought at its core. Instead, at the core of nonviolence is praxis, which is impure because while it aims at freedom and plurality, it is made of less-than-perfect actions performed in an imperfect environment by flawed individuals. Offering a more progressive, transformative, and at the same time pluralistic concept of nonviolence, this book is an original conceptual analysis of political theory which will appeal to students of international relations, global politics, security studies, peace studies, and democratic theory.

The Routledge History of World Peace since 1750 Christian Philip Peterson, William M. Knoblauch, Michael Loadenthal, 2018-10-10 The *Routledge History of World Peace since 1750* examines the varied and multifaceted scholarship surrounding the topic of peace and engages in a fruitful dialogue about the global history of peace since 1750. Interdisciplinary in nature, the book includes contributions from authors working in fields as diverse as history, philosophy, literature, art, sociology, and Peace Studies. The book crosses the divide between historical inquiry and Peace Studies scholarship with traditional aspects of peace promotion sitting alongside expansive analyses of peace through other lenses, including specific regional investigations of the Middle East, Africa, Latin America, and other parts of the world. Divided thematically into six parts that are loosely chronological in structure, the book offers a broad overview of peace issues such as peacebuilding, state building, and/or conflict resolution in individual countries or regions, and indicates the unique challenges of achieving peace from a range of perspectives. Global in scope and supported by regional and temporal case studies, the volume is an essential resource for educators, activists, and policymakers involved in promoting peace and curbing violence, as well as students and scholars of Peace Studies, history, and their related fields.

Violence, Nonviolence, and Moral Worth Sanjay Lal, 2024-09-11 Given the ubiquity of violence in our world, the ever-present call to renounce violence has the understandable tendency to ring hollow to many of us. There is no shortage of evidence showing that we really don't oppose violence as much as we claim to. By conceptually analyzing the terms violence and nonviolence, as well as by offering palpable readings of Gandhi's thought and discussing how we can better identify with others, *Violence, Nonviolence, and Moral Worth* offers insight into how we can

begin reducing the gap between our professed reverence for nonviolence and our everyday practices Sanjay Lal argues that neither our inability to perfectly uphold nonviolent practice nor the reality that moral worth is often exhibited through acts of violence should be an obstacle to affirming the value of a more comprehensive ethic of nonviolence Peace theorists activists and anyone interested in a less violence filled existence will find much to take away from this work
