The Mystery and the World Maria Clara Bingemer, 2016-05-10 During the past century an enormous effervescence of events changed the sociopolitical configuration of the world The interpretation of these facts helped further deepen the crisis in which modern thought already found itself and it generated the uncertain and unstable environment in which we live today the so called postmodernity late modernity or hypermodernity In this context one of the most profound impacts is most certainly the one on religion During the twentieth century religion proved not to be banished from the human horizon as the masters of suspicion intended Known as the godless century the twentieth century saw also a resuscitation of the search for the sense of life and spirituality With the crisis of modern reason humankind turned toward consumerism and provisional and light practices The last century represents not only the height of the postmodernization process but also the rescue of the transcendent and absolute even if it is an absolute without face and identity It is in this scenario that religious experiences apparently exiled by modern rationality begin to occur and multiply again Mystical experiences will be then the basis for highlighting recurrent characteristics with universal import But they will show a different configuration than before One will be able to find them not in so called sacred spaces but in very secular ones not so much within institutions but at the borders or even outside them not configured by a specific tradition but in an interface that makes more than one tradition meet and

dialogue **The Oxford History of the Novel in English** Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public s attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States **Potterversity** Kathryn N.
