The Cambridge History of the Book in Britain, Volume 6: 1830-1914 David McKitterick, 1987 **The Cambridge History of the Book in Britain: Volume 6, 1830-1914** David McKitterick, 2009-03-05 The years 1830 1914 witnessed a revolution in the manufacture and use of books as great as that in the fifteenth century Using new technology in printing paper making and binding publishers worked with authors and illustrators to meet ever growing and more varied demands from a population seeking books at all price levels The essays by leading book historians in this volume show how books became cheap how publishers used the magazine and newspaper markets to extend their influence and how book ownership became universal for the first time The fullest account ever published of the nineteenth century revolution in printing publishing and bookselling this volume brings The Cambridge History of the Book in Britain up to a point when the world of books took on a recognisably modern form *The Book in Britain* Daniel Allington, David A. Brewer, Stephen Colclough, Sian Echard, Zachary Lesser, 2019-03-11 Introduces readers to the history of books in Britain their significance influence and current and future status Presented as a comprehensive up to date narrative The Book in Britain A Historical Introduction explores the impact of books manuscripts and other kinds of material texts on the cultures and societies of the British Isles The text clearly explains the technicalities of printing and publishing and discusses the formal elements of books and manuscripts which are necessary to facilitate an understanding of that impact This collaboratively authored narrative history combines the knowledge and expertise of five scholars who seek to answer questions such as How does the material form of a text affect its meaning How do books shape political and religious movements How have the economics of the book trade and copyright shaped the literary canon Who has been included in and excluded from the world of books and why The Book in Britain A Historical Introduction will appeal to all scholars students and historians interested in the written word and its continued production and presentation *Giants of Tourism* Richard W. Keighren, Charles W. J. Withers, Bill Bell, 2015-05-11 The Age of Exploration and Discovery may well have started in the 15th century but for the British the 19th century saw the rise of the British Empire and an explosion in world travel The travel narratives written during this century were profuse and by some estimates more travel narratives were written during the first half of the 19th century than in all preceding centuries These accounts tell of wondrous zoological and botanical finds of topography never before imagined and of exotic peoples as well At the time there was one publisher John Murray known for its utter domination of the travel narrative field The caliber and profile of their list was known throughout the UK and Europe and into the US as well The authors of the house included Jane Austen Lord Byron Washington Irving and Sir Walter Scott And in its list of travel writing and exploration the house boasted the authors Charles Darwin and Charles Lyell Murray's name became as synonymous with travel writing and exploration as it was with literary giants *Travels into Print* is a tour through the archives and files of the House of Murray and marvelous expedition in the geography of travel and exploration writing knowledge and reception in the 19th century Rather than focusing on narratives of a particular region or scientific area of interest or particular period the work uses a source that cuts across all of these areas the publisher Steeped in book files and correspondence about edits and revisions sent between Murray and his staff and explorers the book addresses the ways in which the texts were written the role of truth in the accounts correspondence as a form of production and the writings as travel documents This is a wonderful history of the book told from the perspective of a legendary book and author maker [The Sociocultural Functions of Edwardian Book Inscriptions](#) Lauren Alex O'Hagan, 2021-03-29 This innovative text draws on theories and methodologies from the fields of multimodality ethnography and literacy studies to explore the sociocultural significance of book ownership and book inscriptions in Edwardian Britain *The Sociocultural Functions of Edwardian Book Inscriptions* examines evidence gathered from historical records archival documents and the inscriptive practices of individuals from the Edwardian era to foreground the social communicative and performative functions of inscriptive practices and illustrate how material lexical and semiotic means were used to perform identity contest social status and forge relationships with others The text adopts a unique ethnohistorical approach to multimodality supporting the development of a typography of book inscriptions which will serve as a unique interpretive framework for analysis of literary artifacts in the context of broader sociopolitical forces This text will benefit doctoral students researchers and academics in the fields of literacy studies English language arts and research methods in education more broadly Those interested in British book history anthropology and

20th century literature will also enjoy this volume [Reading the Book of Nature](#) Jonathan R. Topham, 2022-10-12 A powerful reimagining of the world in which a young Charles Darwin developed his theory of evolution When Charles Darwin returned to Britain from the Beagle voyage in 1836 the most talked about scientific books of the day were the Bridgewater Treatises This series of eight works was funded by a bequest of the last Earl of Bridgewater and written by leading men of science appointed by the president of the Royal Society to explore the Power Wisdom and Goodness of God as manifested in the Creation Securing public attention beyond all expectations the series offered Darwin's generation a range of approaches to one of the great questions of the age how to incorporate the newly emerging disciplinary sciences into Britain's overwhelmingly Christian culture Drawing on a wealth of archival and published sources including many unexplored by historians Jonathan R Topham examines how and to what extent the series contributed to a sense of congruence between Christianity and the sciences in the generation before the fabled Victorian conflict between science and religion Building on the distinctive insights of book history and paying close attention to the production circulation and use of the books Topham offers new perspectives on early Victorian science and the subject of science and religion as a whole [Crusoe's Books](#) Bill Bell, 2021 This is a book about readers on the move in the age of Victorian empire It examines the libraries and reading habits of five reading constituencies from the long nineteenth century shipboard emigrants Australian convicts Scottish settlers polar explorers and troops in the First World War What was the role of reading in extreme circumstances How were new meanings made under strange skies How was reading connected with mobile communities in an age of expansion Uncovering a vast range of sources from the period from diaries periodicals and literary culture Bill Bell reveals some remarkable and unanticipated insights into the way that reading operated within and upon the British Empire for over a century [Victorian Reformations](#) Miriam Elizabeth Burstein, 2013-12-30 In *Victorian Reformations: Historical Fiction and Religious Controversy 1820-1900* Miriam Elizabeth Burstein analyzes the ways in which Christian novelists across the denominational spectrum laid claim to popular genres most importantly the religious historical novel to narrate the aftershocks of 1829 the year of Catholic Emancipation Both Protestant and Catholic popular novelists fought over the ramifications of nineteenth century Catholic toleration for the legacy of the Reformation But despite the vast textual range of this genre it remains virtually unknown in literary studies *Victorian Reformations* is the first book to analyze how high theological and historical debates over the Reformation's significance were popularized through the increasingly profitable venue of Victorian religious fiction By putting religious apologists and controversialists at center stage Burstein insists that such fiction frequently dismissed as overly simplistic or didactic is essential for our understanding of Victorian popular theology history and historical novels Burstein reads lost but once exceptionally popular religious novels for example by Elizabeth Rundle Charles Lady Georgiana Fullerton and Emily Sarah Holt against the works of such now canonical figures as Sir Walter Scott Charles Dickens and George Eliot while also drawing on material from contemporary sermons histories and

periodicals Burstein demonstrates how these novels which popularized Christian visions of change for a mass readership call into question our assumptions about the nineteenth century historical novel In addition her research and her conceptual frameworks have the potential to influence broader paradigms in Victorian studies and novel criticism
