The Evolution Delusion Kenneth Lawrence, 2008-05 **DEBUNKING THE EVIDENCE BEHIND THE EVOLUTIONIST WORLDVIEW** Throughout the last half of the twentieth century and now into the new millennium the public has been fed a

steady diet of anti Biblical propaganda by an increasingly determined cadre of evolutionist scientists educators and media outlets The result of this concerted effort has been a shifting of public consciousness away from Biblical truth and into a new paradigm in which belief in some form of Darwinian evolution has become a Litmus test of acceptability in our society But is this paradigm shift founded on legitimate scientific evidence The answer to this question is a resounding NO Over the last several decades scientists in widely varied disciplines have refuted much of the evidence behind today s various competing evolution theories The time has finally come to expose evolution for what it is delusion Kenneth Lawrence was born in British Columbia Canada where he currently resides He has had an intense interest in science most of his life A believer in Darwinian evolution for many years Ken became a Christian at the age of twenty three but had difficulty accepting a straightforward reading of the Bible s account of origins for many years In his late forties Ken began to seriously investigate the scientific claims of evolution theory Nearly a decade of personal research has resulted in an invigorated faith in the God of the Bible and in the writing of this book

Objections to Evolution Nirushan Sivanesan,2023-05-11 The theory of evolution as proposed by Charles Darwin in 1859 has been plagued by controversy and criticisms since its inception But in the Western world at least the fight seems to be almost over with evolution being seen by many as a sealed deal The theory has made its way into science textbooks and has firmly lodged itself there Could this be the biggest mistake the scientific community has ever made Objections to Evolution addresses this question It reexamines the evidence for evolution and brings forth a new case against it from a nonreligious perspective This case contains completely unique and thought provoking ideas arguments and theories It asks and answers fundamental questions which have not been addressed previously and attempts to create a revolution in the way we think about our origins
