The Changing Pacific Essays In Honour Of H E:

Tonga Martin Daly, 2009-02-04 Praise for the first edition *Tonga* is unique among bibliographies in its perception and understanding and in its affection for Tonga and its people. Daly's work stands on exceptionally sound foundations. His summaries are excellent indeed but Daly writes always with the authority of first hand knowledge with a keen eye for the essential and the ability to interpret and clarify obscurities. A trustworthy introduction to Tonga in all its diversity, a splendid point de d part for all layman or scholar needing a reliable guide to the essential literature about this remarkable Polynesian kingdom. *Bulletin of the School of Oriental and African Studies*. The book is so arranged that it is easy to locate any of the items listed. I found myself spending pleasant hours perusing Daly's comments on the different publications. I hope the rumor of a second revised edition of this bibliography is true. *Journal of the Polynesian Society*. *Tonga* is a fascinating and subtle combination of a traditional Polynesian kingdom, the only one to survive the impact of colonization in the nineteenth century and remain independent and a thoroughly Christian country. This comprehensive bibliography is a selective guide to the most significant and accessible English language books, papers and articles on every aspect of the kingdom's history, culture, arts, politics, environment and economy. It is a much updated and expanded edition of the original version that was published in 1999 as part of the *World Bibliographical Series* with the addition of more than 200 new entries. Each of the approximately 600 described and annotated items is organized under broad subject headings and indexed by author, title and subject. In addition, and new to this edition, all known Ph.D. theses, although not annotated, are shown within their appropriate subject categories and indexed. Also new is a section on the most important Tonga-related websites. A general introduction describes the Tongan kingdom, its history and society and its current situation. *Tonga: A New Bibliography* will be an invaluable resource for anyone with a serious interest in Tonga and an indispensable volume for academic libraries, reference collections and policy makers focused on the Pacific islands. *The Ivory Tower and Beyond* Susan Cochrane, Doug Munro, Max Quanchi, 2009-03-26 There is a tradition of participant history among historians of the Pacific Islands, unafraid to show their hands on issues of public importance and risking controversy to make their voices heard. This book explores the theme of the participant historian by delving into the lives of J. C. Beaglehole, J. W. Davidson, Richard Gilson, Harry Maude and Brij V. Lal. They lived at the interface of scholarship and practical engagement in such capacities as constitutional advisers, defenders of civil liberties or upholders of the principles of academic freedom. As well as writing history, they made history, and their excursions beyond the ivory tower informed their scholarship. Doug Munro's sympathetic engagement with these five historians is likewise informed by his own long-term involvement with the sub-discipline of Pacific History. ***The Flaming Womb*** Barbara Watson Andaya, 2006-07-31 The Princess of the Flaming Womb, the Javanese legend that introduces this pioneering study, symbolizes the many ambiguities attached to femaleness in Southeast Asian societies. Yet despite these ambiguities, the relatively egalitarian nature of male-female relations in Southeast Asia is central to arguments claiming a coherent identity.

for the region This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought provoking view of Southeast Asian history that focuses on women s roles and perceptions Andaya explores the broad themes of the early modern era 1500 1800 the introduction of new religions major economic shifts changing patterns of state control the impact of elite lifestyles and behaviors drawing on an extraordinary range of sources and citing numerous examples from Thai Vietnamese Burmese Philippine and Malay societies In the process she provides a timely and innovative model for putting women back into world history Andaya approaches the problematic issue of Southeast Asia by considering ways in which topography helped describe a geo cultural zone and contributed to regional distinctiveness in gender construction She examines the degree to which world religions have been instrumental in re constructing conceptions of gender an issue especially pertinent to Southeast Asian societies because of the leading role so often played by women in indigenous ritual She also considers the effects of the expansion of long distance trade the incorporation of the region into a global trading network the beginnings of cash cropping and wage labor and the increase in slavery on the position of women Erudite nuanced and accessible *The Flaming Womb* makes a major contribution to a Southeast Asia history that is both regional and global in content and perspective

The Atlantic World D'Maris Coffman, Adrian Leonard, William O'Reilly, 2014-12-05 As the meeting point between Europe colonial America and Africa the history of the Atlantic world is a constantly shifting arena but one which has been a focus of huge and vibrant debate for many years In over thirty chapters all written by experts in the field *The Atlantic World* takes up these debates and gathers together key original scholarship to provide an authoritative survey of this increasingly popular area of world history The book takes a thematic approach to topics including exploration migration and cultural encounters In the first chapters scholars examine the interactions between groups which converged in the Atlantic world such as slaves European migrants and Native Americans The volume then considers questions such as finance money and commerce in the Atlantic world as well as warfare government and religion The collection closes with chapters examining how ideas circulated across and around the Atlantic and beyond It presents the Atlantic as a shared space in which commodities and ideas were exchanged and traded and examines the impact that these exchanges had on both people and places Including an introductory essay from the editors which defines the field and lavishly illustrated with paintings drawings and maps this accessible volume is invaluable reading for all students and scholars of this broad sweep of world history

Island Societies Patrick Vinton Kirch, 1986-10-09 Concentrating their attention on the Pacific Islands the contributors to this book show how the tightly focused social and economic systems of islands offer archaeologists a series of unique opportunities for tracking and explaining prehistoric change From the 1950s onwards excavations in such islands as Fiji Palau and Hawaii revolutionised Oceanic archaeology and as the major problems of cultural origins and island sequences were resolved archaeologists came increasingly to study social change and to integrate newly acquired data on material culture with older ethnographic and ethnohistorical materials The fascinating

results of this work centring on the evolution of complex Oceanic chiefdoms into something very much like classic archaic states are authoritatively surveyed here

Where the Waves Fall K.R. Howe, 2023-05-03 *Where the Waves Fall* 1984 centres the stories of the Pacific Islanders and how they were affected by European explorers and colonisers in this unique account of human settlement and cultural interchange in the Pacific islands It follows the fortunes of the seafarers who discovered island after island in the world's largest ocean traces the development of their civilisations and examines in depth the interaction between them and the newcomers European explorers traders beachcombers missionaries merchants who from the sixteenth century came in an increasing series of waves The book's framework enables the author to throw new light on hitherto isolated events Novel suggestions are advanced as to why some islands became kingdoms in the earlier years of European contact and why others did not and of how and why missionaries were accepted on some islands but not on others Nor does Professor Howe shrink from provocative and at times controversial arguments concerning the ambitions and strategies of island leaders and indeed the overall nature and extent of the initiatives taken by the islanders

Framing the Islands Greg Fry, 2019-10-25 Since its origins in late eighteenth century European thought the idea of placing a regional frame around the Pacific islands has never been just an exercise in geographical mapping This framing has always been a political exercise Contending regional projects and visions have been part of a political struggle concerning how Pacific islanders should live their lives *Framing the Islands* tells the story of this political struggle and its impact on the regional governance of key issues for the Pacific such as regional development resource management security cultural identity political agency climate change and nuclear involvement It tells this story in the context of a changing world order since the colonial period and of changing politics within the post colonial states of the Pacific *Framing the Islands* argues that Pacific regionalism has been politically significant for Pacific island states and societies It demonstrates the power associated with the regional arena as a valued site for the negotiation of global ideas and processes around development security and climate change It also demonstrates the political significance associated with the role of Pacific regionalism as a diplomatic bloc in global affairs and as a producer of powerful policy norms attached to funded programs This study also challenges the expectation that Pacific regionalism largely serves hegemonic powers and that small islands states have little diplomatic agency in these contests Pacific islanders have successfully promoted their own powerful normative framings of Oceania in the face of the attempted hegemonic impositions from outside the region seen for example in the strong commitment to the Blue Pacific continent framing as a guiding ideology for the policy work of the Pacific Islands Forum in the face of pressures to become part of Washington's Indo Pacific strategy

Texts and Contexts Doug Munro, Brij V. Lal, 2005-11-30 *Texts and Contexts* is concerned with the development of Pacific Islands history as a specialization in its own right Specifically this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field Thirty five texts all of which represent defining points in the

development of Pacific Islands historiography are examined Much more than retrospective appraisals of the foundational texts the individual chapters consider a text or complimentary texts within the context of the time of writing and gauge what ongoing influence they exerted In some cases they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism Contributors Chris Ballard on Gavin Souter Ivan Brady on Greg Denning I C Campbell on Norma McArthur Bronwen Douglas and Doug Munro on H E Maude and Dorothy Shineberg Michael Goldsmith on Marshall Sahlins David Hanlon on Francis X Hezel K R Howe on Andrew Sharp and David Lewis Brij V Lal on K L Gillion and Peter Corris Hugh Laracy on Niel Gunson and Ta unga Lamont Lindstrom on Peter Worsley and Peter Lawrence Doug Munro on Douglas L Oliver R P Gilson J W Davidson and K R Howe Vincent O Malley on Keith Sinclair and Alan Ward Jon Osorio on Ralph Kuykendall and Gavan Daws Tom Ryan on Bernard Smith Jane Samson on W P Morrell and Deryck Scarr Francis West on Francis West and Gavan Daws Glyndwr Williams on O H K Spate

The Behavioural Environment F.W. Boal,D.N. Livingstone,2003-09-02 Placing human action and perception at the centre of the subject this book considers the effects of mankind on the environment drawing particularly from William Kirk s work on the behavioural environment model Reviewing Kirk s original model in light of recent ideological debate and extensive new evidence this collection of essays from leading names in the field shows that a behavioural approach is essential in understanding human geography and man s relationship with the ecological environment
