The City Of Words Cbc Massey Lecture:

The City of Words Alberto Manguel, 2008 And yet stories even the best and truest can't save us from our own folly Stories can't protect us from suffering and error from natural and artificial catastrophes from our own suicidal greed The only thing they can do is offer consolation for suffering and words to name our experience Stories can tell us who we are and suggest ways of imagining a future that without calling for comfortable happy endings may offer us ways of remaining alive together on this much abused earth Based on Canada's 2007 CBC Massey Lectures to be broadcast in Australia by ABC Radio National in April 2008 Alberto Manguel's *The City of Words* takes a fresh look at the rise of violent intolerance in our societies We strive to build societies with sets of values all citizens can agree on But something has gone wrong race riots in France political murder in the Netherlands bombings in Britain and Bali are these symptoms of a multicultural experiment gone awry Why is it so difficult for us to live together when the alternatives are demonstrably horrifying With his trademark wit and erudition Alberto Manguel suggests a fresh approach we should look at what visionaries poets novelists essayists and filmmakers have to say about building societies Perhaps the stories we tell hold secret keys to the human heart From Cassandra to Jack London the Epic of Gilgamesh to the computer Hal in 2001 A Space Odyssey Don Quixote to Atanarjuat The Fast Runner Manguel draws fascinating and revelatory parallels between the personal and political realities of our present day world and those of myth legend and story *The Captivity of Innocence* André LaCocque, 2010-04-02 In this study the third panel of a trilogy on J's tales about evil and innocence in the primeval era the author turns to Genesis 11:1-9 another parable this time on the so called Tower of Babel *The Captivity of Innocence* analyzes a systemic robotization of society as a way of keeping innocence behind bars contending that innocence never fails to offend never fails to stir envy and hate Here evil is not wrought by an individual like Cain or Lamech but by all the earth so that the summit of evil is now reached before Abraham's breakthrough in Genesis following chapter The present analysis uses a variety of techniques to interpret the biblical text including historical critical literary sociopolitical psychoanalytic and deconstructive approaches The inescapable conclusion is that Babel is the Kafkaesque image of our world and is a powerful paradigm of our hubristic contrivances and constructions *Des Tours de Babel* says Derrida in order to deny our finiteness Then innocence is trampled upon but it is not overcome Babel Babylon's fate is to crumble down and to bring up from her ashes the Knight of Faith

Information Ethics, Globalization and Citizenship Toni Samek, Lynette Shultz, 2017-03-22 The boundaries of citizenship have been blurred by global information systems while the public and private spheres have been reshaped through globalization and colonialism and capitalism This collection of new essays explores information and citizenship in the digital age from a range of perspectives presenting cautionary tales along with possibilities for decolonizing digital information and literacy Topics include Wikileaks and the dissolution of information ethical issues for teachers policy makers and librarians and creating safe spaces through ethical librarianship **Archibald Lampman** Eric Ball, 2013-05-01 Treasuring the past

savouring the present and wanting to do right by the future Archibald Lampman was a poet keenly focused on the workings of time He was also a thinker of mystical predisposition His goal was not to transcend time but to find redemptive meaning within it Archibald Lampman Memory Nature Progress explores the ways in which Lampman pursued this goal in relation to the three faces of time Memory fascinated Lampman He relished the alchemy by which the dross of past experience could be left behind and the gold preserved Nature compelled his mind and emotions and his clear eyed observations of both countryside and wilderness settings gave rise to a self evolved poetics of inclusiveness In his celebrations of nature in all its manifestations mild or bleak he anticipated the work of iconic Canadian painter Tom Thomson and he forecasted the environmentalism of our own time Progress for Lampman spelled societal rectification By forwarding the cause of social betterment one was part of a movement larger than oneself and this expansion too was redemptive Archibald Lampman Memory Nature Progress is the first book on this foundational figure in Canadian literature to appear in over twenty five years and the first thematically focused study Combining close analysis with biographical context it shows how Lampman s oeuvre was shaped by his responses to his physical surroundings and to his social intellectual milieu as filtered through his stubbornly independent outlook *Society, History, and the Global Human Condition* Zaheer Baber, Joseph M.

Bryant, 2010-12-18 This Festschrift for Irving M Zeitlin honors a scholar whose work has influenced and continues to influence sociology particularly classical sociological theory sociology of religion and historical sociology Irving M Zeitlin s scholarship and mentoring has also influenced and inspired a new generation of sociologists The essays presented here address a wide range of topics that include classical sociological theory globalization bureaucracy genocide resistance ethnic diversity the intifada anti-Semitism democracy geopolitical theory war literature science and national culture The contributions span a wide range of geographical areas that include Korea China India Poland Spain Germany the ex Soviet Union Canada and the United States These essays by eminent scholars located in many parts of the world affirm the incredibly broad range of expertise and learning that Irving M Zeitlin s work has engaged with The contributions to this volume also serve to highlight the contemporary relevance of the classical sociological tradition in making sense of the global human condition **Therefore Choose Life** George Wald, 2017-09-09 This recently discovered and very timely 1970

Massey Lectures by Nobel Prize winning scientist George Wald now in print for the first time ever Where did we come from who are we and what is to become of us these questions have never been more urgent Then as now the world is facing major political and social upheaval from overpopulation to nuclear warfare to environmental degradation and the uses and abuses of technology Using scientific fact as metaphor Nobel Prize winning scientist George Wald meditates on our place and role on Earth and in the universe He urges us to therefore choose life to invest in our capabilities as human beings to heed the warnings of our own self destruction and above all to honour our humanity *The Wayfinders* Wade Davis, 2009-10-01 Every culture is a unique answer to a fundamental question What does it mean to be human and alive In *The Wayfinders* renowned

anthropologist winner of the prestigious Samuel Johnson Prize and National Geographic Explorer in Residence Wade Davis leads us on a thrilling journey to celebrate the wisdom of the world's indigenous cultures In Polynesia we set sail with navigators whose ancestors settled the Pacific ten centuries before Christ In the Amazon we meet the descendants of a true lost civilization the Peoples of the Anaconda In the Andes we discover that the earth really is alive while in Australia we experience Dreamtime the all embracing philosophy of the first humans to walk out of Africa We then travel to Nepal where we encounter a wisdom hero a Bodhisattva who emerges from forty five years of Buddhist retreat and solitude And finally we settle in Borneo where the last rainforest nomads struggle to survive Understanding the lessons of this journey will be our mission for the next century For at risk is the human legacy a vast archive of knowledge and expertise a catalogue of the imagination Rediscovering a new appreciation for the diversity of the human spirit as expressed by culture is among the central challenges of our time Democracy on Trial Jean Bethke Elshtain, 1993-11-08 Is democracy as we know it in danger More and more we confront one another as aggrieved groups rather than as free citizens Deepening cynicism the growth of corrosive individualism statism and the loss of civil society are warning signs that democracy may be incapable of satisfying the yearnings it itself unleashes yearnings for freedom fairness and equality In her 1993 CBC Massey Lectures political philosopher Jean Bethke Elshtain delves into these complex issues to evaluate democracy's chances for survival *Reading St. Luke's Text and Theology: Pentecostal Voices* Riku P. Tuppurainen, 2019-10-16 Lukan narrative takes its readers into God's story how his salvation plan in Jesus began on the slopes of Judea and at the Sea of Galilee ending on the hill of Calvary and the Mount of Olives yet moving on and telling how the Spirit descended onto the Temple Mount empowering God's people who then began to fulfill the given mandate in the presence of the Spirit Yet readers of Luke Acts throughout the centuries have had a meandering journey as they have tried to understand the narrative's persuasion and Spirit references This book seeks to bring awareness to these challenges by some of the most respected Pentecostal biblical scholars and systematicians Here their vigorous labor with the questions of hermeneutics and theology in relation to Lukan writings have come to fruition These contributions have been collected as a Festschrift in honor and celebration of the career of Roger Stronstad a Pentecostal biblical scholar whose contribution to Lukan studies have moved Pentecostal scholarship from shadows into daylight The editor of this volume invites the readers of Lukan narrative to journey together on the road to Emmaus as we continue to ponder the events in the past the present and the future University of Toronto ,
