Townsend, 2020-06-26 Focusing on contemporary debates in philosophy and legal theory this ground breaking book provides a compelling enquiry into the nature of human dignity The author not only illustrates that dignity is a concept that can extend our understanding of our environmental impacts and duties but also highlights how our reliance on and relatedness to the environment further extends and enhances our understanding of dignity itself

The Oxford Handbook of Humanism Anthony B. Pinn, 2021 As a system of thought that values human needs and experiences over supernatural concerns humanism has gained greater attention amid the rapidly shifting demographics of religious communities This outlook has taken on global dimensions with activists artists and thinkers forming a humanistic response not only to religion but to the pressing social and political issues of the 21st century The Oxford Handbook of Humanism aims to explore the subject by analyzing its history its philosophical development and its influence on culture It will also discuss humanism as a global phenomenon an approach that has often been neglected in more Western focused works

Pluralizing Humanism Slavica Jakelić, 2025-02-28 Humanism is appealed to today whenever we want to tackle the conditions of dehumanization in the contemporary world But for humanism to be viable in the twenty first century this book argues it needs to be pluralized Employing theoretical historical and sociological arguments this book moves beyond the discourse of critique It engages theories of religion and secularism as well as postmodern postcolonial and decolonial critiques of Western humanist projects to uncover the ideas and practices of religious and secular humanisms when they challenge dehumanization in the pursuit of conditions of flourishing for all Through studies of the Solidarity movement in Poland and the anti apartheid movement in South Africa the book demonstrates the centrality of humanist traditions to the emergence of

religious secular solidarities that transformed the political landscapes of the world By highlighting the instances in which humanisms functioned as checks on each other's absolutist claims the book contends that humanisms supply a constructive path for addressing the challenges of our time a time of radically divided societies and intolerant even violent forms of nationalism A challenge to the critiques of humanism that seek to identify it solely as the legacy of the West as anti religious discourse or relegate it to the domain of power constellations Pluralizing Humanism highlights the rich plurality of humanist discourses and the need for their mutual engagements It points to humanist ideals as constitutive of politics that can guide our human power because they are irreducible to it As such this book will appeal to social scientists social theorists religious studies scholars and ethicists with interests in religion secularism social movements and humanist thought and practice

Dignity Remy Debes, 2017 In everything from philosophical ethics to legal argument to public activism it has become commonplace to appeal to the idea of human dignity In such contexts the concept of dignity typically signifies something like the fundamental moral status belonging to all humans Remarkably however it is only in the last century that this meaning of the term has become standardized Before this dignity was instead a concept associated with social status Unfortunately this transformation remains something of a mystery in existing scholarship Exactly when and why did dignity change its meaning And before this change was it truly the case that we lacked a conception of human worth akin to the one that dignity now represents In this volume leading scholars across a range of disciplines attempt to answer such questions by clarifying the presently murky history of dignity from classical Greek thought through the Middle Ages and Enlightenment to the present day

The Routledge International Handbook of Sociology and Christianity Dennis Hiebert, 2023-10-18 The Routledge International Handbook of Sociology and Christianity examines the intersection of the sociology of religion a long standing focus of sociology as a discipline and Christianity the world's largest religion An internationally representative and thematically comprehensive collection it analyzes both the

sociology of Christianity and Christian approaches to sociology with attention to the Roman Catholic Orthodox and Protestant branches of Christianity An authoritative state of the art review of current research it is organized into five inter connected thematic sections considering the overlapping emergence of both the Christian religion and the social science the conceptualization of and engagement with Christianity by sociological theory the ways in which Christianity shapes and is shaped by various social institutions the manner in which Christianity resists and promotes various forms of social change and the identification diagnosis and correction of social problems by sociology and Christianity This volume is an invaluable collection for scholars and advanced students with special appeal for those working in the fields of sociology and social theory as well as religious studies and theology

What Kind of Death Govert den Hartogh, 2022-10-31 Many books have been published about physician assisted death This book offers a comprehensive and in depth examination of that subject but it also extends the discussion to a broader range of end of life decisions including suicide palliative care and sedation until death In every jurisdiction that has laws permitting some kind of physician assisted death a central point of controversy is whether such assistance should only be available to dying patients or to everyone who wants to end his life The right to determine the manner and time of one's own death however does not necessarily mean that physicians should be permitted to cooperate in ensuring a quick and peaceful death In this book Govert den Hartogh considers the fundamental and practical matters including concrete issues of legal regulation related to end of life decision making He proposes a two tiered system Everyone should have access to humane means of ending his life if his decision to end it is voluntary well considered and durable But doctors should only participate in a joint action of ending the patient's life on his request if they also are convinced of acting in the patient's best interests in particular by ending intolerable and unrelievable suffering And perhaps there is reason to restrict that second service to dying patients The whole argument however depends on the extent to which in both tiers of the system we can design legal safeguards that will enable us to trust judgments about the requesting person's request and about his suffering The book considers much new evidence in regard to this issue What Kind of Death will appeal to researchers and advanced students working in bioethics applied ethics philosophy of law and health law

Impasse Roy Scranton, 2025-08-05 A Next Big Idea Club Must Read for August 2025 We need a new realism in the face of global climate catastrophe Extreme heat fires floods and storms are transforming our planet Yet instead of serious responses from world leaders we get increasing emissions divisive politics and ersatz solutions that offer more of the same more capitalism more complexity more progress The impasse we face is not only political and institutional but cognitive existential and narrative We're incapable of grasping the scale speed and impact of global warming Our brains can't make sense of how radically our world is changing And we optimistically cling to a civilizational narrative that promises a better tomorrow if we just keep doing what we're doing It's well past time Roy Scranton argues to free ourselves from our dangerous and dogmatic faith in progress Such unwarranted optimism will only accelerate our collective disintegration If we

want to have any hope at all for the future it must be grounded in a recognition of human limits a view Scranton calls ethical pessimism Drawing from psychology philosophy history and politics as well as film literature and personal experience Scranton describes the challenges we face in making sense of our predicament from problems in communication to questions of justice from the inherent biases in human perception to the difficulties of empirical knowledge What emerges is a challenging but ultimately hopeful proposition if we have the courage to accept our limits we may find a way to embrace our unknowable future
