readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

Reading, Writing, and Justice James W. Fraser,1997-01-01 This is a book for teachers parents and other concerned citizens who care about public education who want schools to be democratic in the best sense and who seek argumentative ammunition for defending schools and for placing school issues within the larger framework of the long struggle to keep and expand democracy in the United States *Wired Up* Sue Howard,2005-08-04 For many years now studies rejecting the idea of a direct causal link between the media and children's behaviour and beliefs have been generating insights into children's interactions with all kinds of media forms This book is designed as an accessible introduction to these important research findings for students of cultural and communication studies psychology and education for professionals working with children and young people and in the media industry and for parents *Wired Up* comprises separate studies of a wide range of electronic media forms including television video computer games and the telephone and includes coverage of a broad age range from pre school children to adolescents and young adults It provides insights into such diverse issues as the gendered nature of media consumption the role of parental regulation and peer groups and the significance of narrative realism and morality *Digital Childhoods* Susan J. Danby,Marilyn Flear,Christina Davidson,Maria Hatzigianni,2018-04-03 This book

highlights the multiple ways that digital technologies are being used in everyday contexts at home and school in communities and across diverse activities from play to web searching to talking to family members who are far away The book helps readers understand the diverse practices employed as children make connections with digital technologies in their everyday experiences In addition the book employs a framework that helps readers easily access major themes at a glance and also showcases the diversity of ideas and theorisations that underpin the respective chapters In this way each chapter stands alone in making a specific contribution and at the same time makes explicit its connections to the broader themes of digital technologies in children's everyday lives The concept of digital childhood presented here goes beyond a sociological reading of the everyday lives of children and their families and reflects the various contexts in which children engage such as preschools and childcare centres **Digital Youth, Innovation, and the Unexpected** Tara McPherson,2008 How emergent practices and developments in young people's digital media can result in technological innovation or lead to

unintended learning experiences and unanticipated social encounters Young people's use of digital media may result in various innovations and unexpected outcomes from the use of videogame technologies to create films to the effect of home digital media on family life This volume examines the core issues that arise when digital media use results in unintended learning experiences and unanticipated social encounters The contributors examine the complex mix of emergent practices and developments online and elsewhere that empower young users to function as drivers of technological change recognizing that these new technologies are embedded in larger social systems school family friends The chapters consider such topics as un equal access across economic racial and ethnic lines media panics and social anxieties policy and Internet protocols media literacy citizenship vs consumption creativity and collaboration digital media and gender equity shifting notions of temporality and defining the public private divide Contributors Steve Anderson Anne Balsamo Justine Cassell Meg Cramer Robert A Heverly Paula K Hooper Sonia Livingstone Henry Lowood Robert Samuels Christian Sandvig Ellen Seiter Sarita Yardi

Play = Learning Dorothy Singer, Roberta Michnick Golinkoff, Kathy Hirsh-Pasek, 2006-08-24 In Play Learning top experts in child development and learning contend that in over emphasizing academic achievement our culture has forgotten about the importance of play for children's development
