Word of God Perspectives on Teaching and Learning Chinese Literacy in China Cynthia Leung, Jiening Ruan, 2012-10-03

This is one of two volumes by the same editors that explore historical philosophical and cultural perspectives on literacy in China. This volume focuses on Chinese literacy while the other volume is on English literacy. Since the founding of the People's Republic of China, the country has witnessed a dramatic increase in its literacy rate but not without challenges. The essays in this volume provide a comprehensive cross-disciplinary look at changes in Chinese literacy education from ancient times to the modern day. Together, the essays address a wide array of topics including early Chinese literacy development, children's literature, foreign translated literature, and uses of information technology to teach Chinese. This authoritative text brings clarity and precision to the field and serves as a vital core resource for those who want to expand their understanding of Chinese literacy education. Its scope is unmatched even in academic literature in the Chinese language. **Feminist**

Perspectives on Law and Literature Laura Schmitz-Justen, Laura A. Zander, Hanna Luise Kroll, Laura Wittmann, 2025-04-21

The interdisciplinary study of law and literature can help us better understand intersectionality and vice versa. Intersectional feminist perspectives are extremely valuable in the study of law and literature. Of course, neither feminist nor intersectional approaches are new, and of themselves, for decades literary scholarship has studied the impact of particular constellations of gender, race, and class when it comes to representations of women in literary texts and has succeeded in shaking monolithic and stereotypical notions of womanhood. However, research at the intersection of law, literature, and feminism has so far been limited and insular. Bringing together more than twenty international researchers from related disciplines, this volume is the first to bring questions of intersectional feminism to the forefront of law and literature scholarship. From reproductive and trans gender justice in law and literature to feminist practices that intervene in judicial discourse, this volume brings into focus a wide range of cultural and legal phenomena in which gender and the law intersect in literary texts. The volume's commitment to intersectionality fittingly extends to its very make-up: the contributors were selected to represent a diverse range of positions in terms of their gender, career stage, and nationality. **Resources in Education**

, 2001-10 **The Critical Merits of Young Adult Literature** Crag Hill, 2014-03-05 This examination of the literary effectiveness of young adult literature from a critical research-oriented perspective answers two key questions asked by many teachers and scholars in the field: Does young adult literature stand up on its own as literature? Is it worthy of close study? The treatment is both conceptual and pragmatic. Each chapter discusses a topical text set of YA novels in a conceptual framework, how these novels contribute to or deconstruct conventional wisdom about key topics from identity formation to awareness of world issues, while also providing a springboard in secondary and college classrooms for critical discussion of these novels. Uncloaking many of the issues that have been essentially invisible in discussions of YA literature, these essays can then guide the design of curriculum through which adolescent readers hone the necessary skills to unpack the ideologies embedded in YA narratives. The annotated bibliography provides supplementary articles and books germane to all the issues.

discussed Closing End Points highlight and reinforce cross cutting themes throughout the book and tie the essays together
