personally and professionally enmeshed in the dealings of the cultural industries is of particular relevance at a time when the market is strictly regulated by a few multinational corporations She contends that marginality should not be construed exclusively as a basis for understanding Rushdie's work since a critical grounding in marginality will predictably involve a reproduction of the traditional postcolonial binaries of oppressor oppressed and colonizer colonized that the writer subverts Rather she seeks to expand existing interpretations of Rushdie's work itineraries and frameworks in order to take into account the actual conditions of postcolonial cultural production and circulation within a marketplace that is global in both orientation and effects
