**Handbook of British Romanticism** Ralf Haekel, 2017-09-11 *The Handbook of British Romanticism* is a state of the art investigation of Romantic literature and theory a field that probably changed more quickly and more fundamentally than any other traditional era in literary studies Since the early 1980s Romantic studies has widened its scope significantly The canon has been expanded hitherto ignored genres have been investigated and new topics of research explored After these profound changes intensified by the general crisis of literary theory since the turn of the millennium traditional concepts such as subjectivity imagination and the creative genius have lost their status as paradigms defining Romanticism The handbook will feature discussions of key concepts such as history class gender science and the use of media as well as a thorough account of the most central literary genres around the turn of the 19th century The focus of the book however will lie on a discussion

of key literary texts in the light of the most recent theoretical developments Thus the Handbook of British Romanticism will provide students with an introduction to Romantic literature in general and literary scholars with a discussion of innovative and groundbreaking theoretical developments

**Schoolhouse Gothic** Sherry R. Truffin, 2009-03-26 The Schoolhouse Gothic undertaken by insiders and outsiders to the academy alike and embodied both in literature and in academic discourse draws on Gothic metaphors and themes in representing and interrogating contemporary American schools and educators Curses from the past take the form of persistent power inequities of race gender class and age and rather ironically the very Enlightenment that was to save the moderns from rigid ancient mystified hierarchies In Schoolhouse Gothic literature including works by Stephen King Flannery O Connor Toni Morrison Joyce Carol Oates and David Mamet school buildings classrooms and or offices function as traps or analogues to the claustrophobic family mansions monasteries and convents of old In Schoolhouse Gothic scholarship the trap is academic objectivity viewed not as a lofty goal but rather as an institutional strategy of concealment that blinds the scholar to his or her own prejudices and renders even the most well meaning complicit with inequitable power structures The combination of curse and trap common to the Gothic scenario produces paranoia violence and monstrosity In Schoolhouse Gothic literature schools turn students into psychopaths and machines In the scholarship the product is discourse or epistemic violence reified The Schoolhouse Gothic suggests at the very least that Americans have become increasingly uneasy about the role of the academy increasingly mistrustful of its guardians and increasingly convinced that something sinister lies behind its officially benevolent exterior
