The Child Reader 1700-1840 The Child Reader 1700-1840:

The Child Reader, 1700-1840 M. O. Grenby, 2011-02-17 This book is a major study of child readers and their reading habits in the period when children's literature first became established *The Unsexed Mind and Psychological Androgyny, 1790-1848* Victoria F. Russell, 2022-01-01 This book explores a significant lacuna in British history Between the 1790s and the 1840s the concept of psychological androgyny or the unsexed mind emerged as a notion of psychosexual equality promoted by a small though influential network of heterodox radicals on the margins of Rational Dissent Deeply concerned with the growing segregation of the sexes supported seemingly by arbitrary and increasingly binary models of sexual difference heterodox radicals insisted that while the body might be sexed the mind was not They argued that society and the prejudicial masculinist institutions of patriarchy should be reformed to accommodate and protect what one radical described as an infinitely varied humanity In placing the concept of psychological androgyny centre stage this book offers a substantial revision to understandings of progressive debates on gender in the late eighteenth and early nineteenth century in Britain

Books for Children, Books for Adults Teresa Michals, 2014-03-06 This book explores how ideas about age changed for novels and their readers during the eighteenth and nineteenth centuries **Blake and the Failure of Prophecy** Lucy Cogan, 2021-05-24 This monograph reorients discussion of Blake's prophetic mode revealing it to be not a system in any formal sense but a dynamic human response to an era of momentous historical change when the future Blake had foreseen and the reality he was faced with could not be reconciled At every stage Blake's writing confronts the central problem of all politically minded literature how texts can become action Yet he presents us with no single or indeed conclusive answer to this question and in this sense it can be said that he fails Blake however never stopped searching for a way that prophecy might be made to live up to its promise in the present The twentieth century hermeneuticist Paul Ricoeur shared with Blake a preoccupation with the relationship between time text and action Ricoeur's hermeneutics thus provide a fresh theoretical framework through which to analyse Blake's attempts to fulfil his prophetic purpose *Exploited, Empowered, Ephemeral* Denise Burkhard, 2023-07-10 Childhood in neo-Victorian fiction for both child and adult readers is an extremely multifaceted and fascinating field This book argues that neo-Victorian fiction projects multiple competing visions of childhood and suggests that they can be analysed by means of a typology the childhood scale which provides different categories along the lines of power relations and literary possible worlds theory The usefulness of both is exemplified by detailed discussions of Philippa Pearce's *Tom's Midnight Garden* 1958 Eva Ibbotson's *Journey to the River Sea* 2001 Sarah Waters' *Fingersmith* 2002 and Dianne Setterfield's *The Thirteenth Tale* 2006 Children's Literature Collections Keith O'Sullivan, Pádraic Whyte, 2017-05-19 This book provides scholars both national and international with a basis for advanced research in children's literature in collections Examining books for children published across five centuries gathered from the collections in Dublin this unique volume advances causes in collecting librarianship education and children's literature studies more

O'Malley,2012-07-30 This study of the afterlife of Robinson Crusoe offers insights into the continued popularity and relevance of Crusoe s story and how modern conceptions of childhood are shaped by nostalgia and ideas of the popular Examining many adaptations in a variety of formats it reconsiders the place Crusoe has occupied in our culture for three centuries **Misers** Timothy Alborn,2022-05-05 This volume uses the extreme case of misers to examine interlocking categories that undergirded the emergence of modern British society including new perspectives on charity morality and marriage new representations of passion and sympathy and new modes of saving spending and investment Misers surveys this class of people as invented and interpreted in sermons poems novels and plays analyzed by economists and philosophers and profiled in obituaries and biographies to explore how British attitudes about saving money shifted between 1700 and 1860 As opposed to the century before the nineteenth century witnessed a new appreciation for misers as economists credited them with adding to the nation s stock of capital and novelists newly imagined their capacity to empathize with fellow human beings These characters shared the spotlight with real people who posthumously donned that label populating into a cottage industry of miser biographies by the 1850s By the time A Christmas Carol appeared in 1843 many Victorians had come to embrace misers as links that connected one generation s extreme saving with the next generation s virtuous spending With a broad chronological period this volume is useful for students and scholars interested in representation of misers in eighteenth and nineteenth century Britain Bibliographic Index ,2001
