The Christian College Phenomenon Inside Americas Fastest Growing Institutions Of Higher Learning:

The Scandal of the Evangelical College Martin Spence, 2025-06-30 Despite heady claims about Christ centeredness Evangelical colleges are scandalously secular institutions in thrall to the regnant assumptions of the market economy and mainstream higher education Paradigms intended to integrate faith and learning often ironically fracture and distort Christianity Even the spiritual dimensions of the Christian college presumed to keep it safe from religious declension are prone to secularizing tendencies because the American Evangelical culture from which the college receives its spiritual cues and from which it accepts its donors money is itself captive to a set of sub biblical economic social and political assumptions This book argues that the cause of the scandal is the absence of the church in the imagination of the Evangelical college It therefore proposes that the mission and practice of the Evangelical college should be to summon equip and renew the people of God While this may sound like a return to an obsolete bible school model of Christian education the ecclesial vision only sounds narrow because we lack a robust understanding of the vocation of the church itself By simultaneously restricting our vision of the Evangelical college while broadening our understanding of the church a more fully evangelical educational endeavor might emerge [Restoring the Vocation of a Christian College](#) Brad Pardue, Andrew T. Bolger, 2022-05-19

[Restoring the Vocation of a Christian College](#) examines the vocation of a Christian institution of higher learning to faithfully educate students and how individual Christian teachers and scholars can participate in this process no matter their discipline It surveys and engages developments over the last few decades in Christian worldview studies Christian pedagogy character formation and vocational reflection Through individual essays by college administrators cocurricular staff and faculty from a wide range of disciplines it provides both thoughtful reflection and concrete application of these often abstract concepts to specific institutional settings and the actual classroom experience [Christ-Centered Higher Education](#) David L. McKenna, 2012-09-12

If the Christ centered college or university did not exist would it have to be invented Back in the 1950s the answer was in doubt With few exceptions Christian colleges wallowed in defensive self doubt and divisive competition while under attack from the rising public sector Students of American higher education predicted that they would soon become as extinct as the whooping crane Rather than succumbing to doomsayers leaders in Christian higher education bonded together around the commanding truth that all things come together in Jesus Christ They drove their stake for the future in the integration of faith and learning as the reason for the existence of Christ centered higher education Out of this commitment came a renaissance movement of common cause and unprecedented cooperation through the Consortium of Christian Colleges and the Council for Christian Colleges Universities Will integration continue to be the energizing and all pervasive influence that gives the Christ centered institution its reason for existence Trustees presidents deans and faculties in each generation must think and rethink the concept in the light of theological academic technological and cultural change David McKenna opens the conversation by remembering where we were confirming who we are and envisioning what we can

be **Christian Scholarship in the Twenty-First Century** Thomas M. Crisp, Steve L. Porter, Gregg A. Ten Elshof, 2014-09-19 The Christian tradition provides a wealth of insight into perennial human questions about the shape of the good life human happiness virtue justice wealth and poverty spiritual growth and much else besides and Christian scholars can do great good by bringing that rich tradition into conversation with the broader culture But what is the nature and purpose of distinctively Christian scholarship and what does that imply for the life and calling of the Christian scholar What is it about Christian scholarship that makes it Christian Ten eminent scholars grapple with such questions in this volume They offer deep and thought provoking discussions of the habits and commitments of the Christian scholar the methodology and pedagogy of Christian scholarship the role of the Holy Spirit in education Christian approaches to art and literature and more

The Deritualization of Death Charles Lynn Gibson, 2019-10-15 The problematic field of investigation for this study was for the care of bereaved human beings in the context of significant cultural shifts now shaping the twenty first century Deritualization was identified as a significant interdisciplinary concern that contributes to potential distress in processes of grieving The objective of the research was the development of a practical theology of compassionate caregiving for the bereaved with deference to the problem of deritualization The theoretical framework was guided by the Oxford Interdisciplinary Research model and the Loyola Institute of Ministries model of practical theology The study was designed for applied research for funeral directors and vocational pastors utilizing qualitative research methods Hermeneutical and empirical components addressed six research questions through two domains of inquiry disciplinary

perspectives and educational dynamics of bereavement caregiving Using the method of hermeneutics to critically evaluate the first two research questions three disciplinary fields of knowledge were examined and integrated from the perspective of pastoral care funeral service bereavement psychology and practical theology Each discipline individually converged upon meaningful caregiving meaning reconstruction and meaning reframing as significant modes of bereavement care Using ethnographic semi structured interviews to critically evaluate the remaining four research questions data were collected from a Christian university and a mortuary college The interview questionnaire included twenty five main questions organized in four parts Philosophy of Education Hermeneutics of Bereaved Families Care of Bereaved Families and Encounter of Bereaved Families The study utilized two cycles of qualitative coding techniques to report the findings of each participating school A hybrid form of in vivo and holistic coding as well as a second cycle of pattern coding distilled the interview responses into actionable statements that reinforced bereavement caregiving By synthesizing all of the findings a compelling case was made for a paradigm of comforting presence supported by principles from a Louwian perspective of practical theology including theological anthropology promissiotherapy bipolarity and hermeneutics The study connected a philosophy of meaning reframing and a paradigm of comforting presence to a meta theoretical framework within a narrative approach to care The research elucidated an interdisciplinary understanding that contributed toward a compassionate practical theology of caregiving for the bereaved
