The Christianization Of Iceland Priests Power And Social Change 1000 13:

The Christianization of Iceland Orri Vesteinsson, 2000-05-18 In this first historical study of High Medieval Iceland to be published in English Dr Vesteinsson investigates the influence of the Christian Church on the formation of the earliest state structures in Iceland from the conversion in 1000 to the union with Norway in 1262 In the history of mankind states and state structures have usually been established before the advent of written records As a result historians are rarely able to trace with certainty the early development of complex structures of government In Iceland literacy and the practice of native history writing had been established by the beginning of the twelfth century whereas the formation of a centralised government did not occur until more than a hundred years later The early development of statelike structures has therefore been unusually well chronicled in the Icelandic Sagas and in the historical records of the twelfth and thirteenth centuries Based on this wealth of material The Christianization of Iceland is an important contribution to the discussion on the formation of states

The Church in Fourteenth-Century Iceland Erika Sigurdson, 2016-08-09 In *The Church in Fourteenth Century Iceland* Erika Sigurdson provides a history of the fourteenth century Icelandic Church with a focus on the the social status of elite clerics following the introduction of benefices to Iceland In this period the elite clergy developed a shared identity based in part on universal clerical values but also on a shared sense of interdependence personal networks and connections within the framework of the Church *The Church in Fourteenth Century Iceland* examines the development of this social group through an analysis of bishops sagas annals and documents In the process it chronicles major developments in the Icelandic Church after the reforms of the late thirteenth century including its emphasis on property and land ownership and the growth of ecclesiastical bureaucracy

Force of Words: A Cultural History of Christianity and Politics in Medieval Iceland (11th- 13th Centuries) Haraldur Hreinsson, 2021-03-29 In *Force of Words* Haraldur Hreinsson examines the social and political significance of the Christian religion as the Roman Church was taking hold in medieval Iceland in the 11th 12th and 13th centuries By way of diverse sources primarily hagiography and sermons but also material sources the author shows how Christian religious ideas came into play in the often tumultuous political landscape of the time The study illuminates how the Church which was gathering strength across entire Europe established itself through the dissemination of religious vernacular discourse at the northernmost borders of its dominion

Iceland's Relationship with Norway c.870 - c.1100 Ann-Marie Long, 2017-07-03 In *Iceland's Relationship with Norway c 870 c 1100* Memory History and Identity Ann Marie Long reassesses the development of Icelandic society from the earliest settlements to the twelfth century Through a series of thematic studies the book discusses the place of Norway in Icelandic cultural memory and how Icelandic authors envisioned and reconstructed their past It examines in particular how these authors instrumentalized Norway to explain the changing parameters of Icelandic autonomy Over time this strategy evolved to meet the needs of thirteenth century Icelandic politics as well as the demands posed by the transition from autonomous island to Norwegian dependency

Medieval Iceland Sverrir Jakobsson, 2024-09-20 In the ninth century at the beginning of this account Iceland was uninhabited save for fowl and smaller Arctic animals In the middle of the sixteenth century by the end of this history it had embarked on a course that led to the creation of a small country on the periphery of Europe The history of medieval Iceland is to some degree a microcosm of European history but in other respects it has a trajectory of its own As in medieval Europe the evolution of the Church episodic warfare and the strengthening of the bonds of government played an important role Unlike the rest of Europe however Iceland was not settled by humans until the Middle Ages and it was without towns and any type of executive government until the late medieval period Medieval Iceland is a review of Icelandic history from the settlement until the advent of the Reformation with an emphasis on social and political change but also on cultural developments such as the creation of a particular kind of literature known throughout the world as the sagas A view of medieval Icelandic history as it has never been told before from one of its leading historians this book will appeal to students and scholars alike interested in Icelandic and medieval history
