

The background of the cover is a photograph of a construction site. A worker, shirtless and wearing dark pants, stands on a partially constructed brick wall. He is reaching out towards a large, rectangular concrete beam that is being lowered into place by a crane. The crane's arm and cables are visible in the upper right corner. The sky is a pale, overcast blue. The overall tone is historical and industrial.

The Cold War And The New Imperialism A Global History 1945 2005:

The Cold War and the New Imperialism Henry Heller, 2006-07 The Cold War and the New Imperialism is an account of global history since 1945 which brings massive changes in global politics economics and society together in a single narrative illuminating and clarifying the dilemmas of the present Written for the general reader it draws together scholarly research from a wide range of sources without losing sight of the larger pattern of events In the sixty year period since the end of World War II the world has indeed been remade The war itself mobilized the political and social aspirations of hundreds of millions of people The contest between the United States and the Soviet Union for global dominance drew every country into its field of force Struggles for national liberation in the Third World brought an end to colonial empires Revolutions in China Cuba Vietnam and elsewhere shook the global order as did failed uprisings in Paris and Prague Since the end of the Cold War the forces of the capitalist market have overwhelmed social institutions that have given meaning to human existence for centuries But the end of the Cold War has created as many problems for the world s remaining superpower the United States as it has solved With its political economic and financial hegemony eroding the United States has responded with military adventures abroad and increasing inequality and authoritarianism at home The Cold War and the New Imperialism draws all these threads together and shows vividly that the end of history is not in sight

Encyclopedia of the Cold War Ruud van Dijk, William Glenn Gray, Svetlana Savranskaya, Jeremi Suri, Qiang Zhai, 2013-05-13 Between 1945 and 1991 tension between the USA its allies and a group of nations led by the USSR dominated world politics This period was called the Cold War a conflict that stopped short of a full blown war Benefiting from the recent research of newly open archives the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose developed and was resolved This work examines the military economic diplomatic and political evolution of the conflict as well as its impact on the different regions and cultures of the world Using a unique geopolitical approach that will present Russian perspectives and others the work covers all aspects of the Cold War from communism to nuclear escalation and from UFOs to red diaper babies highlighting its vast ranging and lasting impact on international relations as well as on daily life Although the work will focus on the 1945 1991 period it will explore the roots of the conflict starting with the formation of the Soviet state and its legacy to the present day

of criticism headed by François Furet Today revisionism is the dominant interpretation of the Revolution both in the academic world and among the educated public Against this conception this book reasserts the view that the Revolution the capital event of the modern age was indeed a capitalist and bourgeois revolution Based on an analysis of the latest historical scholarship as well as on knowledge of Marxist theories of the transition from feudalism to capitalism the work confutes the main arguments and contentions of the revisionist school while laying out a narrative of the causes and unfolding of the Revolution from the eighteenth century to the Napoleonic Age *A Love Letter to the Many* Vishwas Satgar, 2024-07-01
