Acting for the Common Good Michael J. McGrath, 2023-08-08 The goods that we pursue in our lives are for us first and foremost goods that are particular and personal and thus goods that are immediate to our attention Not readily apparent to us are goods necessary for the flourishing of our lives but that can be attained by us only in consort with others and thus realized only through collective action Such goods are common goods The wider the good the more extensive must be the human cooperation to realize the good A stable orderly society and a habitable planetary environment are common goods that can be realized only in and through the cooperation of all for the benefit of all That all contribute to the shared good of the whole is a matter of justice social justice Acting for the Common Good undertakes the study of social justice in light of the common good this from the viewpoint of Catholic social teaching which draws upon the tradition of the common good that is articulated classically in the philosophy of Aristotle and the theology of Thomas Aquinas and in the modern day social thought and authoritative teachings of the Catholic Church

Handbook of Equality of Opportunity, 2024-07-12 This Handbook provides an authoritative exposition of equality of opportunity It presents the different concepts most commonly associated with equality of opportunity and discusses the many problems dominating the controversies on equality of opportunity at the theoretical policy or practical level The chapters give a concise exposition of the different conceptions and basic concepts of equal opportunities They clarify variables that are part of the algorithm of equal opportunities e g opportunity equality non discrimination fairness responsibility chance and choice excellence qualifications effort talent merit desert inequality and risk The idea of equality of opportunity has traditionally been associated with a set of largely unquestioned ideals and over the last 50 years it has been at the very centre of the major progressive social changes and firmly entrenched in political rhetoric Yet the idea of equality of opportunity is far from unquestionable or unproblematic as the only solid assumption different conceptions have in common is their rejection of fixed social relations but not hierarchy itself Disagreements over the fundamental principles criticism over the inefficiency of policies aiming to ensure equal opportunities and objections to their unfairness all pose questions that current conceptions answer in different ways This Handbook examines a wide variety of questions about issues of motivation procedures genealogy taxonomy and compensation
