The Canterbury Puzzles H. E. Dudeney, 2002-10-01 This book includes 110 puzzles not as individual problems but as incidents in connected stories The first 31 are amusingly posed by pilgrims in Chaucer's Canterbury Tales Additional puzzles are presented using different characters Many require only the ability to exercise logical or visual skills others offer a stimulating challenge to the mathematically advanced The Canterbury Puzzles, and Other Curious Problems Henry Dudeney, 2019-07-27 *The Canterbury Puzzles and Other Curious Problems* Henry Ernest Dudeney, 2018-06-25 The Canterbury Puzzles And Other Curious Problems Henry Ernest Dudeney Readers of *The Mill on the Floss* will remember that whenever Mr Tulliver found himself confronted by any little difficulty he was accustomed to make the trite remark It's a puzzling world There can be no denying the fact that we are surrounded on every hand by posers some of which the intellect of man has mastered and many of which may be said to be impossible of solution Solomon himself who may be supposed to have been as sharp as most men at solving a puzzle had to admit there be three things which are too wonderful for me yea four which I know not the way of an eagle in the air the way of a serpent upon a rock the way of a ship in the midst of the sea and the way of a man with a maid Probing into the secrets of Nature is a passion with all men only we select different lines of research Men have spent long lives in such attempts as to turn the baser metals into gold to discover perpetual motion to find a cure for certain malignant diseases and to navigate the air From morning to night we are being perpetually brought face to face with puzzles But there are puzzles and puzzles Those that are usually devised for recreation and pastime may be roughly divided into two classes Puzzles that are built up on some interesting or informing little principle and puzzles that conceal no principle whatever such as a picture cut at random into little bits to be put together again or the juvenile imbecility known as the rebus or picture puzzle The former species may be said to be adapted to the amusement of the sane man or woman the latter can be confidently recommended to the feeble minded The curious propensity for propounding puzzles is not peculiar to any race or to any period of history It is simply innate in every intelligent man woman and child that has ever lived though it is always showing itself in different forms whether the individual be a Sphinx of Egypt a Samson of Hebrew lore an Indian fakir a Chinese philosopher a mahatma of Tibet or a European mathematician makes little difference Theologian scientist and artisan are perpetually engaged in attempting to solve puzzles while every game sport and pastime is built up of problems of greater or less difficulty The spontaneous question asked by the child of his parent by one cyclist of another while taking a brief rest on a stile by a cricketer during the luncheon hour or by a yachtsman lazily scanning the horizon is frequently a problem of considerable difficulty In short we are all propounding puzzles to one another every day of our lives without always knowing it We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our
