The Ceramics of South-East Asia Roxanna M. Brown,1977 *Southeast Asian Ceramics* John N. Miksic,2009

Southeast Asia is known to many as a region teeming with tourist destinations economic opportunities and ex colonies but a lesser known facet is its colourful and myriad cultures in which ceramics form an integral part of the social fabric Focusing primarily on the Classical Period 800 1500 CE this book views ancient Southeast Asian culture through the lens of ceramic production and trade influenced but not completely overshadowed by its powerful neighbour China In this landmark publication noted archaeologist and scholar John N Miksic constructs a vivid picture of the development of Southeast Asia s unique ceramics Along with three contributing authors Pamela M Watkins Dawn F Rooney and Michael Flecker he summarizes the fruits of their research over the last forty years beginning in Singapore with the founding of the Southeast Asian Ceramic Society in 1969 The result is a comprehensive and insightful overview of the technology aesthetics and organization both economic and political of seemingly diverse territories in pre colonial Southeast Asia It is essential reading for all those with an interest in the economic history of the region and also for anyone who seeks a better understanding of the brilliant but too often underestimated material culture of Southeast Asia **Southeast Asia** Peter Bellwood,Dr Ian Glover,2023-05-09 This comprehensive and absorbing book traces the cultural history of Southeast Asia from prehistoric especially Neolithic Bronze Iron age times through to the major Hindu and Buddhist civilizations to around AD 1300 Southeast Asia has recently attracted archaeological attention as the locus for the first recorded sea crossings as the region of origin for the Austronesian population dispersal across the Pacific from Neolithic times as an arena for the development of archaeologically rich Neolithic and metal using communities especially in Thailand and Vietnam and as the backdrop for several unique and strikingly monumental Indic civilizations such as the Khmer civilization centred around Angkor Southeast Asia is invaluable to anyone interested in the full history of the region *The Maritime Silk Road* Franck Billé,Sanjyot Mehendale,James Lankton,2025-10-01 The Maritime Silk Road foregrounds the numerous networks that have been woven across oceanic geographies tying world regions together often far more extensively than land based routes On the strength of the new data which has emerged in the last two decades in the form of archaeological findings as well as new techniques such as GIS modelling the authors collectively demonstrate the existence of a very early global maritime trade From architecture to cuisine and language to clothing evidence points to early connections both within Asia and between Asia and other continents well before European explorations of the Global South The human stories presented here offer insights into both the extent and limits of this global exchange showing how goods and people travelled vast distances how they were embedded in regional networks and how local cultures were shaped as a result **Cultural and Economic Relations Between East and West** Mikasa no Miya Takahito,1988 Contains most of the papers read to the 7th section part 2 of the XXXIst International Congress of Human Sciences in Asia and North Africa held in Tokyo Japan Pref Art of Island
