The Cias Secret War In Tibet Modern War Studies:

The CIA's Secret War in Tibet Kenneth Conboy, James Morrison, 2002-04-04 Defiance against Chinese oppression has been a defining characteristic of Tibetan life for more than four decades symbolized most visibly by the much revered Dalai Lama But the story of Tibetan resistance weaves a far richer tapestry than anyone might have imagined Kenneth Conboy and James Morrison reveal how America's Central Intelligence Agency encouraged Tibet's revolt against China and eventually came to control its fledgling resistance movement While the CIA's presence in Tibet has been alluded to in other works the authors provide the first comprehensive as well as most compelling account of this little known agency enterprise The CIA's Secret War in Tibet takes readers from training camps in the Colorado Rockies to the scene of clandestine operations in the Himalayas chronicling the agency's help in securing the Dalai Lama's safe passage to India and subsequent initiation of one of the most remote covert campaigns of the Cold War Establishing a rebel army in the northern Nepali kingdom of Mustang and a para commando force in India designed to operate behind Chinese lines Conboy and Morrison provide previously unreported details about secret missions undertaken in extraordinarily harsh conditions Their book greatly expands on previous memoirs by CIA officials by putting virtually every major agency participant on record with details of clandestine operations It also calls as witnesses the people who managed and fought in the program including Tibetan and Nepalese agents Indian intelligence officers and even mission aircrews Conboy and Morrison take pains to tell the story from all perspectives particularly that of the former Tibetan guerrillas many of whom have gone on record here for the first time The authors also tell how Tibet led America and India to become secret partners over the course of several presidential administrations and cite dozens of Indian and Tibetan intelligence documents directly related to these covert operations Ultimately they are persuasive that the Himalayan operations were far more successful as a proving ground for CIA agents who were later reassigned to southeast Asia than as a staging ground for armed rebellion As the movement for Tibetan liberation continues to attract international support Tibet's status remains a contentious issue in both Washington and Beijing This book takes readers inside a covert war fought with Tibetan blood and U S sponsorship and allows us to better understand the true nature of that controversy

War in Modern China Harold M Tanner, 2025-09-30 This book offers comprehensive coverage of China's military history from the Qing dynasty 1644 1912 to present China has become one of the great world powers of the twenty first century As a result Chinese leaders and observers outside of China alike seek to explain China's strategic thought and action In doing so they routinely refer to China's military history This volume examines this history beginning with the Qing dynasty's era of imperial expansion and subsequent decline continuing with the wars against foreign aggression and internal uprisings of the nineteenth century the revolutionary overthrow of the Qing in 1911 and seemingly constant wars of the first half of the twentieth century and concluding with the Chinese Communist Party's use of military power from 1950 to present This history is generally presented as a narrative of imperial greatness followed

by a century of national humiliation followed by a recovery of national wealth and power under Communist Party leadership While acknowledging this narrative Harold Tanner digs deeper to reveal a fundamental continuity of interests underlying Chinese strategic thinking from the Qing to the present while also showing how the theory and practice of war in China changed over time as Chinese political and military leaders wrestled with tremendous challenges drawing on foreign sources as well as their own cultural heritage to seek new solutions Both engaging and timely *War in Modern China A Military History* is essential reading for students scholars and enthusiasts of Chinese and global military history *Proceedings of the Tenth Seminar of the IATS, 2003. Volume 11: Tibetan Modernities* International Association for Tibetan Studies.

Seminar, 2008-05-31 This book the first scholarly publication in the West to provide detailed documentation of modern life in contemporary Tibet presents the cutting edge field work carried out by an interdisciplinary group of researchers studying caste pop music media painting education economics childbirth and environment in Tibetan communities today **A**

History of Modern Tibet 1913-1951: The Demise of the Lamaist State Melvyn C Goldstein critically revises our understanding of that key period in midcentury Tibet. This authoritative account utilizes new archival material including never before seen documents and extensive interviews with Tibetans including the Dalai Lama and with Chinese officials. Goldstein furnishes fascinating and sometimes surprising portraits of these major players as he deftly unravels the fateful intertwining of Tibetan and Chinese politics against the backdrop of the Korean War, the tenuous Sino-Soviet alliance, and American cold war policy.

The Making of Modern Tibet A. Tom Grunfeld, 2015-02-24 An account of Tibet and the Tibetan people that emphasises the political history of the 20th century. This book attempts to reach beyond the polemics by considering the various historical arguments using archival material from several nations and drawing conclusions focused on available documents. **Dean Acheson** Robert L. Beisner, 2009-03-06 Dean Acheson was one of the most influential Secretaries of State in U.S. history, presiding over American foreign policy during a pivotal era: the decade after World War II when the American Century slipped into high gear. During his vastly influential career, Acheson spearheaded the greatest foreign policy achievements in modern times, ranging from the Marshall Plan to the establishment of NATO. In this acclaimed biography, Robert L. Beisner paints an indelible portrait of one of the key figures of the last half century. In a book filled with insight based on research in government archives, memoirs, letters, and diaries, Beisner illuminates Acheson's major triumphs, including the highly underrated achievement of converting West Germany and Japan from mortal enemies to prized allies, and does not shy away from examining his missteps. But underlying all his actions, Beisner shows, was a tough-minded determination to outmatch the strength of the Soviet bloc, indeed to defeat the Soviet Union at every turn. The book also sheds light on Acheson's friendship with Truman: one a bourbon-drinking mid-Westerner with a homespun disposition, the other a mustachioed Connecticut dandy who preferred perfect martinis. Over six foot tall, with steel blue merry searching eyes and a wolfish grin, Dean Acheson was an unforgettable character: intellectually brilliant, always debonair, and tough as tempered steel. This lustrous portrait of an immensely accomplished and colorful life is the epitome of the biographer's art. Shadow States Bérénice Guyot-Réchard, 2017 This book explores Sino-Indian tensions from the angle of state building, showing how they stem from their competition for the Himalayan people's allegiance.
