Make It Ours Robin Givhan, 2025-06-24 Virgil Abloh s iconic rise to the top of the fashion industry embodied a groundbreaking transformation of the relationship between who we are and what we wear Abloh s appointment as head of menswear for Louis Vuitton in 2018 shocked the fashion industry as he became the first Black designer to serve as artistic director in the brand s 164 year history But as Pulitzer Prize winning culture critic Robin Givhan reveals Abloh s story encompasses so much more than his own journey Using Abloh s surprising path to the top of the luxury establishment Givhan unfolds the larger story of how the cloistered exclusive fashion world faced a revolution from below in the form of streetwear and designers unafraid to storm the gates how their notions of what was luxury simultaneously anticipated and upended consumer preferences and how a simple T shirt held as much cultural power as a haute couture gown As Givhan relays Abloh rose during a time of existential angst for a fashion industry trying to make sense of its responsibilities to a diverse audience and the challenges of selling status to a generation of consumers who fetishized sneakers and prioritized comfort How that moment came to be how someone like Abloh who had no formal training in patternmaking or tailoring could come to symbolize and embody the industry s way forward is the story at the heart of this book Make It Ours is at once a remarkable biography of a singular creative force and a powerful meditation on fashion and race taste and exclusivity genius and luxury With access to Abloh s family friends collaborators and contemporaries and featuring a cast of fascinating characters ranging from visionary Black designers like Ozwald Boateng to Abloh s mercurial but critical employer and mentor Kanye West Givhan weaves a spellbinding tale of a young man s rise amid a cultural moment that would upend a century s worth of ideas about luxury and taste

The Politics of Expertise in Cultural Labour Karen Patel, 2020-03-16 What is expertise In the arts or cultural work the experts in this area are commonly regarded to be art critics dealers or intermediaries Why are they considered experts What about the expertise of the artists or cultural workers themselves The Politics of Expertise in Cultural Labour provides a much needed account of the concept of expertise in cultural work providing new insights into the individual experiences of cultural workers and the role of social media in their creative practice and development of expertise It also explores the potential reasons for inequalities in the sector which centre not only on protected characteristics such as class gender and race but increasingly the digital divide Drawing on interviews with cultural workers and an innovative social media analysis this book highlights the characteristics of aesthetic expertise in production the practical skills cultural workers hone and deploy over years of training and creative practice This is a new take on aesthetic expertise which is

traditionally associated with those involved in the judgement of culture such as critics dealers and intermediaries The book highlights how social media platforms both enable and constrain the development of practical aesthetic expertise and the platforms role in the mediation of the cultural object online Finally Patel interrogates the power dimensions of expertise focusing primarily on gender Drawing on the work of Pierre Bourdieu it explores how opportunities to develop aesthetic expertise and the ability to use social media platforms to signal that expertise are not available to everyone In this sense The Politics of Expertise in Cultural Labour adds new perspectives to the growing body of work on inequalities in the creative and cultural industries as well as scholarship on social media and creative work The book concludes with the argument that the term expertise needs to be problematised and reclaimed by those who are not equally represented in the cultural industries using gender as a case in point
