Stuart Hall Aktivismus Pop Politik:

Stuart Hall. Aktivismus, Pop und Politik Dagmar Brunow, 2015 **Migration, Squatting and Radical Autonomy** Pierpaolo Mudu, Sutapa Chattopadhyay, 2016-07-01 This book offers a unique contribution exploring how the intersections among migrants and radical squatter s movements have evolved over past decades The complexity and importance of squatting practices are analyzed from a bottom up perspective to demonstrate how the spaces of squatting can be transformed by migrants With contributions from scholars scholar activists and activists this book provides unique insights into how squatting has offered an alternative to dominant anti immigrant policies and the implications of squatting on the social acceptance of migrants It illustrates the different mechanisms of protest followed in solidarity by migrant squatters and Social Center activists when discrimination comes from above or below and explores how can different spatialities be conceived and realized by radical practices Contributions adopt a variety of perspectives from critical human geography social movement studies political sociology urban anthropology autonomous Marxism feminism open localism anarchism and post structuralism to analyze and contextualize migrants and squatters exclusion and social justice issues This book is a timely and original contribution through its exploration of migrations squatting and radical autonomy **Making the invisible visible** Ingrid Stigsdotter, 2020-07-15 As film stars actresses have contributed to the film industry s glamorous surface To talk about women in film as invisible may thus seem odd This book however is concerned with the paradox that on the other side of the camera women are clearly underrepresented This is true of contemporary film culture and has been true historically despite significant variations between countries geographical areas historical time periods and different roles professions in film production distribution and exhibition Considering women s gradually increasing participation in the paid workforce during the 20th century women s representation in film work might also be expected to increase gradually from the beginning of cinema and onwards However as the Women Film Pioneers Project has suggested the number of women who at all levels inside and outside the Hollywood film industry was greater in first two decades of cinema than at any time since This may partly reflect the fact that it was easier for women to enter the film industry in an early experimental phase before it had become apparent how lucrative the medium of film could be Nevertheless there is arguably a need to extend the attention on women s contributions to film history beyond the silent era making visible what has been absent in traditional film history books and reclaim women s agency in a wider film historical perspective This anthology represents a step in this direction The articles included in the book deal with women s agency in a wide range of roles in film production exhibition and criticism but also with new perspectives on stars actresses and their agency and extending focus to include LGBT and queer identities We pay particular attention to the challenges and opportunities that digitization offers for projects of this kind including a wider range of methods subjects and themes **The power of vulnerability** Anu Koivunen, Katariina Kyrölä, Ingrid Ryberg, 2018-12-28 This book investigates the new language of vulnerability that has emerged in feminist queer

and antiracist debates on media taking a particular interest in the historical legacies and contemporary forms and effects of this language Contributors such as Jack Halberstam and Sara Ahmed examine how vulnerability has become a battleground how affect and vulnerability have turned into a politicised currency both for addressing and obscuring asymmetries of power and how media activism and state policies address so called vulnerable groups Taking on such heated topics as trigger warnings and diversity policies the book will be of interest to scholars and students in media and cultural studies affect theory gender studies queer theory and critical race studies An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence
