Motawy, 2025-02-25 A social and political history of two decades of Egyptian neoliberalism through children's picture books published in Egypt in the post 2000 era Children's picture books are some of the most transparently ideological materials available to parents and educators and as cultural objects they are an expression of the zeitgeist of a particular era They reveal much about the hopes values and aspirations of the society that produces them as well as that society's vision of its place in the wider world at large Children's Picture Books and Contemporary Egyptian Society examines a new wave of Egyptian picture books that was published in the current century to see how these books responded to larger societal trends and transformations in Egypt as well as to explore the ideologies that lie behind them Yasmine Motawy argues that a host of factors including the growth of gated communities and international schooling the proliferation of lucrative literary awards returning Gulf migrants television dramas and nationwide reading advocacy initiatives helped give rise to a new kind of children's picture book in Egypt Motawy focuses on three clusters of selected picture books to investigate the extent to which these books reproduce hegemonic discourses or alternatively open up new horizons of childhood agency and societal transformation The first cluster includes books that directly socialize the child by showing them how things are done in both the domestic sphere and the increasing globalized spaces that children frequent with their families The second cluster aims at reframing cultural notions around femininity through the retelling of folk and fairy tales while the third cluster addresses children's abilities to assess the impact of their actions on their environment and invites them to examine their personal suitability to positions of power and stewardship **The Everything Guide to Writing Children's Books** Luke Wallin, Eva

Children's Faith Jeanne Hall, 2012-03-29 Fostering faith in children is a shared privilege and responsibility of parents, godparents, and the church community. We promise our children at baptism that we will support them in their faith formation in the formation of their relationship with God. We need to take this promise seriously. This book is intended to be an accessible and helpful resource for parents and other adults who seek to foster children's faith. This book succinctly explores many ways we can support children's faith formation including our day to day interactions with children, the images of God we share with them, how we pray together, the rituals we create, service opportunities we provide, music we share together, the stories we tell, and listen to our celebration of the sacraments and more. While this book has a distinctly Roman Catholic orientation, much of the content will be relevant for a wider Christian audience. Lastly, but perhaps most importantly, this book is rooted in the conviction that the God we seek relationship with, and that we hope to foster our children's relationship with, is one who is infinitely loving, welcoming, and always yearning for deeper connection with us.
