Biohacking Manual Social Buzz:

Sciences et techniques en sociétés Soraya Boudia, Ashveen Peerbaye, 2024-10-10 Les sciences et les technologies façonnent profondément les sociétés contemporaines. Au cours des deux derniers siècles, elles sont devenues un puissant moteur de transformation comptant parmi les formes les plus significatives de l'activité humaine : inséparables de la vie sociale, politique et économique. Analyser leurs modes de production, les dynamiques de leur circulation, les différentes formes de leur mobilisation et leur contestation est un enjeu académique et politique majeur. Cet ouvrage propose un large panorama de travaux menés en France et d'un champ de recherche international pluridisciplinaire désigné Science and Technology Studies (STS). Cette étude est le fruit de la collaboration d'une trentaine d'auteurs. Elle a pour ambition de présenter ce domaine de recherche, sa formation, ses apports et les nouvelles perspectives qui se dessinent en rendant accessibles et en mettant en discussion des travaux insuffisamment connus en France, alors que paradoxalement de nombreux chercheurs des institutions françaises contribuent de manière décisive à la production internationale dans ce domaine.
