Nutrition and Prevention of Alzheimer's Disease Claudia Perez-Cruz, Sofia Diaz Cintra, 2015-12-18 Altered metabolism is known to be associated with a higher incidence of Alzheimer s disease AD Diabetes type 2 obesity and metabolic syndrome are considered risk factors for the development of dementias including AD These metabolic diseases may have a genetic predisposition but most of them are caused by environmental factors and life style Most research has focused on the effect of a high fat diet HFD and sweetened beverages that induce obesity Importantly a HFD can also trigger oxidative stress neuro inflammation and cognitive decline Less is known however about beneficial effects of diet on cognition such as slowing the progression or preventing AD by ingesting whole fruits vegetables fish and oil It is important to highlight the difference between vitamin mineral supplements and whole food as it appears that the former are clinically ineffective while multiple ingredients in the latter act synergistically to improve cognition As AD is a disease of slow progression therapies should start several decades before clinical symptoms can be observed one strategy can be the ingestion of healthy food in those subjects with one or more risk factors genetic environmental life style already in their 40s just when some brain metabolic disturbances start to develop This dietary therapy can overcome the increased reactive oxygen species protein deposition and synaptic failure characteristic of AD This research topic will cover a range of research articles case studies opinion and mini reviews all focused on describing the damaging effects of an industrial diet on cognition as well as on highlighting the beneficial effects of a healthy diet to prevent AD We believe that we still have time to fight against the negative impact of our industrialized cultures and adopt better eating habits increase exercise and slow down our life style to prevent increasing dementia in the aging population Also all these topics has been a product of intensives investigations with a great life hope and we hope you all enjoy reading this e book
