

1. GETTING TO KNOW YOUR MACHINE

Tips to help you sew knit successfully

1 Use a ballpoint needle. A ballpoint needle has a rounded tip that slides between the fibers of the knit fabric rather than piercing them. This prevents the fabric from being damaged and the stitches from being uneven.

2 Use a stretch stitch. A stretch stitch, such as the zigzag or the triple stitch, allows the fabric to stretch without the stitches breaking. This is essential for sewing knit fabrics.

3 Use a smaller needle size. A smaller needle size will create a smaller hole in the fabric, which will help the stitches to hold together better.

4 Use a smaller thread size. A smaller thread size will create a smaller hole in the fabric, which will help the stitches to hold together better.

5 Use a smaller tension. A smaller tension will create a looser stitch, which will help the fabric to stretch without the stitches breaking.

6 Use a smaller needle size. A smaller needle size will create a smaller hole in the fabric, which will help the stitches to hold together better.

7 Use a smaller thread size. A smaller thread size will create a smaller hole in the fabric, which will help the stitches to hold together better.

8 Use a smaller tension. A smaller tension will create a looser stitch, which will help the fabric to stretch without the stitches breaking.

9 Use a smaller needle size. A smaller needle size will create a smaller hole in the fabric, which will help the stitches to hold together better.

10 Use a smaller thread size. A smaller thread size will create a smaller hole in the fabric, which will help the stitches to hold together better.
