Queering the Redneck Riviera Jerry T. Watkins III, 2021-07-29 Queering the Redneck Riviera recovers the forgotten and erased history of gay men and lesbians in North Florida a region often overlooked in the story of the LGBTQ experience in the United States Jerry Watkins reveals both the challenges these men and women faced in the years following World War II and the essential role they played in making the Emerald Coast a major tourist destination In a state dedicated to selling an image of itself as a family friendly tropical paradise and in an era of increasing moral panic and repression queer people were forced to negotiate their identities and their places in society Watkins re creates queer life during this period drawing from sources including newspaper articles advertising and public relations campaigns oral history accounts government documents and interrogation transcripts from the state s Johns Committee He discovers that postwar improvements in transportation infrastructure made it easier for queer people to reach safe spaces to socialize He uncovers stories of gay and lesbian beach parties bars and friendship networks that spanned the South The book also includes rare photos from the Emma Jones Society a Pensacola based group that boldly hosted gatherings and conventions in public places Illuminating a community that boosted Florida s emerging tourist economy and helped establish a visible LGBTQ presence in the Sunshine State Watkins offers new insights about the relationships between sexuality capitalism and conservative morality in the second half of the twentieth century

A Dream Defaulted Jason N. Houle, Fenaba R. Addo, 2022-08-16 A Dream Defaulted explores how the student loan crisis disproportionately affects Black borrowers and why rising student debt is both a cause and consequence of social inequality in the United States Jason N Houle and Fenaba R Addo offer a deft analysis of the growing financial crisis in education examining its sources and its impacts Based on more than five years of ongoing qualitative and quantitative research this incisive work illustrates how the student loan system has not benefited all students equally The authors tell the story of how first generation college students low income students and students of color are disadvantaged in two opposing phases of the process debt accumulation and debt repayment They further demonstrate that policies intended to mitigate financial burden and prevent default have failed to assist the people who most need help Houle and Addo present these social and racial disparities within a broader context tracing how centuries of institutionalized racism have contributed to social and economic inequities perpetuating the racial wealth gap and leading to intergenerational inequality Through interviews with borrowers they illuminate the ways in which racial disparities affect who has college access how and why people take on debt and who has the ability to repay student loan debt after leaving college Recognizing that the affordability crisis cannot be solved by higher education reform alone Houle and Addo consider solutions They argue that policy must extend beyond debt reduction and financial aid to address entrenched patterns of racial inequality and racial discrimination both inside and outside institutions of higher education
