Spirit Of Flight Mini Book:

Rilke in the Making: A Comprehensive Study of His Life and Work from 1897 to 1926, in Three Volumes John O'Meara, 2023-09-02 In part through critical biography in part through a close reading of almost all of the poems Rilke wrote including many poems from his Diaries this large book challenges new ideas about what went into the making of Rilke over twenty years of production from his early beginnings under the tutelage of Lou Salom right through to his famous final works the Sonnets to Orpheus and the Duino Elegies Volume 1 focuses largely on The Book of Hours Volume 2 on The Book of Images the two parts of New Poems The Notebooks of Malte Laurids Brigge and the first Elegies written while at Duino Volume 3 on those all crucial self transforming ten years beyond Duino that lead up to the Sonnets to Orpheus and Rilke's eventual completion of the Elegies Two major theses are put forward in this book the first touching on Rilke's well known relationship to his former lover and mentor Lou Salom who is understood to have been a far more problematic influence on him than we had supposed the second touching on an equally crucial and at some point saving influence on Rilke from the literary sphere which is shown to be that of the great visionary poet who went by the name of Novalis Behind the grand story of Rilke's poetic emergence lies the fundamental and long standing reality of his repression by Lou and what that would sow paradoxically by way of a sublimated achievement as sublimely poignant as it is finally tragic JOHN O MEARA received his PhD from the University of East Anglia in 1986 He taught for many years at the University of Toronto and the University of Ottawa He is the author of The Way of Novalis and Remembering Shakespeare Visit the author's website at johnomeara.squarespace.com
