Conversation with a bull?

So I started off just messaging with a guy on here and eventually passed my wife's info... things have since escalated. I get the feeling he wants to chat here so this will become a bit of a conversation that you all get to witness. He has asked me not to message him directly... I believe that he is video chatting with her right now. And I think he has seen alot. Feel free to look at some of my other posts to see what I've been going through in life.

Chivalry Is On Life Support, Chapter Eighteen

I didn't keep careful track, but looking back over the last three years, I would say that Luke slept in the same bed as Brooke about 70% of the time on average. Of that 70%, two thirds of the time was spent at our house in town and one third at Luke's, especially during the summers so we could spend time in his huge back yard and large inground pool. My favorite times, of course, were the 30% when he was not around, as back in the early days of our marriage. These were when Luke was traveling on business (courting out potential...

This was always a strange thought to me because they seemed very good for each other and I que...

U.S. Militarism and the Terrain of Memory John Bechtold, 2024-08-01 This book analyzes how the Iraqi city of Fallujah became registered as a setting for military heroics in American memory In 2004 the U S military conducted two disastrous assaults in Fallujah Iraq More than 1 000 citizens were killed and according to the military's own estimate upwards of 200 000 people were displaced because of the violence Yet despite this human catastrophe the kind of information that emerged in the public domain during the battle foregrounded the soldier's experience in war while effacing the destruction of Iraqi bodies This tendency to foreground the soldier body is a direct result of the military's intervention in

what they conceptualize as the information environment This book draws from the second assault in Fallujah as a case study to explicate the military's investment in this perspectival space which is a consequence both of the mediatization of contemporary war and of the need to influence knowledge considered unfavorable to military operations In short the military enlists the media in their targeting process to produce information that is then deployed as persuasive force to modify the beliefs of specific target populations When the cultural texts produced by the media are remediated in the public domain after war they can be thought of as martial constructs because they originated during war through the military's systemized attempt to influence knowledge That is these texts trace to a specific battlefield objective This book reframes the notion of propaganda as a generalized public relations strategy into a more acute and coordinated attempt to decontextualize specific knowledge in the information environment This book will be of much interest to students of media and communication studies war studies memory studies and international relations *Rails: Novice to Ninja* Glenn Goodrich, Patrick

Youth Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 *Youth Digital Health and Online Platforms* focuses on young people's use of the digital platform Reddit for health. Drawing upon dialogism theory, the book explores how young people produce a youth-led discourse of youth digital health, different from the adult-led framing represented in youth digital health research, policy and service delivery. Peer-led discussions online remain one of the controversial forms of youth digital health, associated with negative peer influence or casual teenage talk. This book argues that online peer-led dialogues support young people's agency in health and that young people can benefit from dealing with health issues with peers. The work is based on the digital ethnography of teenagers' subreddits on Reddit and utilises a theoretical framework of dialogism, a linguistic-based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin. The book introduces the concept of dialogical youth-led youth digital health discourse formed in the peer-led space of Reddit. This youth-led discourse celebrates equality and diversity amongst people, meanings and opinions. It is constructed around three relational elements: socio-material affordances, creative practices and a plurality of youth voices. Reddit's pseudonymous, anti-authoritarian and egalitarian nature supports the emergence of this youth-led discourse. The book can interest scholars and lecturers in childhood and youth studies, Internet studies and youth health.
