Flipnosis Kevin Dutton, 2011-01-11 What if I were to tell you that a psychopathic arsonist might also be the person most likely to save you from a burning building This book is about a special kind of persuasion flipnosis It has an incubation period of just seconds and can instantly disarm even the most discerning mind Flipnosis is black belt mind control It doesn't just turn the tables it kicks them over From the malign but fascinating powers of psychopaths serial killers and con men to the political genius of Winston Churchill via the grandmasters of martial

arts Buddhist monks magicians advertisers salesmen CEOs and frogs that mug each other Kevin Dutton's brilliantly original and revelatory book explores what cutting edge science can teach us about the techniques of persuasion *When Texas Prison Scams Religion* Michael G. Maness, 2023-05-22 *When Texas Prison Scams Religion* exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ's executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars **Say It with Data** Priscille Dando, 2014

Kevin Dutton pulls back the curtains of the mind to reveal a new way of thinking about a problem as old as humanity itself. While our instinct for categorization often leads us astray encouraging polarization rigid thinking and sometimes outright denialism it is an essential component of the mental machinery we use to make sense of the world. Simply put unless we perceived our environment as a chessboard our brains wouldn't be able to play the game. Using the latest advances in psychology neuroscience and evolutionary biology Dutton shows how we can optimize our tendency to categorize and fine tune our minds to avoid the pitfalls of too little and too much complexity. He reveals the enduring importance of three super categories fight or flight us versus them and right or wrong and argues that they remain essential to not only convincing others to change their minds but to changing the world for the better. Black and White Thinking is a scientifically informed wake up call for an era of increasing extremism and a thought provoking uplifting guide to training our gray matter to see that gray really does matter.
