Researching Conflict, Drama and Learning John O'Toole, Dale Bagshaw, Bruce Burton, Anita Grünbaum, Margret Lepp, Morag Morrison, Janet Pillai, 2019-02-21 This book offers a comprehensive and critical guide to research and practice in the field of arts education and conflict management The DRACON project explores the relationship between drama and conflict transformation This international interdisciplinary and comparative action research project begun in 1996 is aimed at improving conflict management and transformation among adolescent school students using the medium of educational drama The book reports on the underpinning principles and on action research practice in Malaysia Sweden and Australia The strategies and techniques which were revolutionary when first introduced are now tried and tested The book chronicles the history successes opportunities and challenges of the original 10 year project and brings the story up to date by highlighting some of its many legacies and resulting influences around the world This book will benefit researchers academics and graduate students in Education the Social Sciences Dispute Resolution and the Performing Arts **The Drama of the Commons** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on the Human Dimensions of Global Change, 2002-02-15 The tragedy of the commons is a central concept in human ecology and the study of the environment It has had tremendous value for stimulating research but it only describes the reality of human environment interactions in special situations Research over the past thirty years has helped clarify how human motivations rules governing access to resources the structure of social organizations and the resource systems themselves interact to determine whether or not the many dramas of the commons end happily In this book leaders in the field review the evidence from several disciplines and many lines of research and present a state of the art assessment They summarize lessons learned and identify the major challenges facing any system of governance for resource management They also highlight the major challenges for the next decade making knowledge development more systematic understanding institutions dynamically considering a broader range of resources such as global and technological commons and taking into account the effects of social and historical context This book will be a valuable and accessible introduction to the field for students and a resource for advanced researchers **The Oxford Handbook of the Development of Play** Anthony D. Pellegrini, 2011 The role of play in human development has long been the subject of controversy Despite being championed by many of the foremost scholars of the twentieth century play has been dogged by underrepresentation and marginalization in literature across the scientific disciplines The Oxford Handbook of the Development of Play marks the first attempt to examine the development of children's play through a rigorous and multidisciplinary approach Comprising chapters from the foremost scholars in psychology anthropology and evolutionary biology this handbook resets the landscape of developmental science and makes a compelling case for the benefits of play Edited by respected play researcher Anthony D Pellegrini The Oxford

Handbook of the Development of Play is both a scientific accomplishment and a shot across the bow for parents educators and policymakers regarding the importance of children's play in both development and learning *Elevating Leadership* Pelin Kohn, 2024-06-17 *Elevating Leadership* explores the critical importance of innovative pedagogical practices in a world where leadership demands are rapidly changing using experiential learning simulations and technology enabled tools Pelin Kohn provides real world scenarios fosters practical insights and enhances problem solving skills *Drama and Theatre with Children* Charru Sharma, 2015-12-14 Drama as a process centred form is a popular and valued methodology used to develop thinking and learning in children while theatre provides a greater focus on the element of performance In recent years offering drama and theatre as a shared experience is increasingly used to engage children and to facilitate learning in a drama classroom Using drama and theatre as a central component with children this book is an amalgamation of theory research and practice from across the globe offering insights into differing educational contexts Chapters provide an exploration of the methodologies and techniques used to improve drama in the curriculum and highlight the beneficial impact drama has in a variety of classrooms enriching learning and communication Contributions from 17 authors ranging from teachers in schools or universities to researchers and drama practitioners examine a variety of perspectives related to drama and children in an attempt to bridge gaps and move ahead collectively as educators practitioners and researchers in drama and theatre Divided into two parts Part I reflects on the use of drama in its varied forms with children while Part II focuses on projects and experiments with children using theatre in order to draw links between drama theatre and pedagogy *Drama and Theatre with Children* will be key reading for researchers academics and postgraduate students in the fields of drama education theatre education curriculum studies and child development The book will also be of interest to drama practitioners school teachers and teacher training leaders ***A Real Part to Play*** Dalzell, Ruth, Elin Stefansson, 2005-01-01 This resource will enable professionals and other adults to empower young people to participate in planning and regeneration projects ***From Principles of Learning to Strategies for Instruction-with Workbook Companion*** Robert J. Seidel, Kathy C. Perencevich, Allyson L. Kett, 2007-09-23 *From Principles of Learning to Strategies for Instruction* Part One The purpose of this book is to help educators and training developers to improve the quality of their instruction Unlike other available works the text is not limited to a particular theoretical position Nor is it like many of the instructional design texts which ignore the learning literature Rather it draws upon any and all of those research based principles regardless of learning theory which suggest heuristics to guide instructional strategies The approach of the authors is unique in that they develop a framework or model taxonomy for tasks through which the principles of learning can be related to particular learning processes suggesting distinctive strategies for specific instructional tasks The authors present a four stage model that includes acquisition automaticity near term transfer and far term transfer *Workbook Companion* Part Two In this *Workbook Companion* the strategies presented in the original book are expanded by supplying practical and specific

strategies to implement of a variety of other subject matters These strategies are based on the needs which the authors currently see and cite in existing educational systems Each chapter concentrates on providing recommended instructional strategies and practical exercises for a specific target group high school age adolescents Contributors supply strategies in the different learning domains including Cognitive Psychomotor Affect and Interpersonal and each individual is responsible for training teachers developing and or evaluating curricula for such training and educating high school students through the development and implementation of curricula Developed for both new and experienced teachers developing curricula for high school adolescents the goal of the Workbook Companion is to provide those in the field of education with strategies to incorporate each of the four domains into their lesson plans regardless of subject area
