These functions will supplement the methodology when specific technologies are examined, thus reducing the common redundancies found in other security books. This book is designed to be the one-stop shop for security engineers who want all their information in one place. The technical nature of this may be too much for middle management; however, technical managers can use the book to help them understand the challenges faced by the engineers who support their businesses.

Unprecedented Team of Security Luminaries Led by Foundstone Principal Consultant Erik Pace Birkholz: each of the contributing authors on this book is a recognized superstar in their respective fields. All are highly visible speakers and consultants, and their frequent presentations at major industry events such as the Black Hat Briefings and the 29th Annual Computer Security Institute Show in November 2002 will provide this book with a high-profile launch.
