Who's who in the Midwest, 1987 **Slope** Pamela Carter, 2014 An intimate and hedonistic examination of a nineteenth century love triangle slope explores the affair between the poets Paul Verlaine and Arthur Rimbaud and its impact on Verlaine's young wife Mathilde Their verbal sparring is scabrous and hilarious and their roller coaster relationships as passionate and claustrophobic as they are cruel and ridiculous *Bibliography and Index of Geology*, 1986 *National Journal*, 1976 **Hesperia**, 1981 *Monthly Catalogue, United States Public Documents*, 1982

Monthly Catalog of United States Government Publications, 1982 **Unfreezing the Arctic** Andrew Stuhl, 2016-11-03 This account of a region transformed and threatened offers a timely historical reflection on the important social role of science and scientists Historical Geography In recent years environmentalists have pointed urgently to the

melting Arctic as a leading indicator of climate change While climate change has unleashed profound transformations in the region many commentators mislabel them as unprecedented In reality the landscapes of the North American Arctic as well as relations among scientists Inuit and federal governments are products of the region s colonial past And even as policy analysts activists and scholars clamor about the future of our world s northern rim few truly understand its past In *Unfreezing the Arctic* Andrew Stuhl brings a fresh perspective to this defining challenge of our time Stuhl weaves together a wealth of episodes into a transnational history of the North American Arctic providing a richer understanding of its social and environmental transformation Drawing on historical records and extensive ethnographic fieldwork as well as time spent living in the Northwest Territories he examines the long running interplay of scientific exploration colonial control the experiences of Inuit residents and multinational investments in natural resources With a comprehensive look at a century of scientific activity he covers the political economic environmental and social history of this transboundary region A worthy addition to the recent wave of work on northern history Bridging the histories of colonialism resource management military activity and Indigenous self determination Stuhl focuses on Alaska and northwest Canada including the Beaufort Sea Mackenzie Delta and surrounding region *Canadian Journal of History* The author intends to donate all royalties from this book to the Alaska Youth for Environmental Action AYE and East Three School s On the Land Program
