Husserl, Heidegger and the Crisis of Philosophical Responsibility R.P. Buckley, 2012-12-06 The guiding dictum of phenomenology is to the things themselves This saying conveys a sense that the things the phenomena with which we are confronted and into which we seek some insight are not as immediately accessible as may be imagined Phenomena however are often hidden not by their distance from us but by their very proximity by the fact that they are taken for granted as being self evident and understood by all Even the most common everyday phenomena and the words used to describe them often reveal upon closer inspection a degree of complexity which had previously been unsuspected Upon interrogation that which had been taken to be self evident and widely understood shows itself otherwise assumed self evidence frequently masks unintelligibility and common understanding can be a sign of a lack of understanding One phenomenon which is extremely proximate in our times is the phenomenon of crisis To be sure one can hardly avoid the word these it abound in periodicals and newspapers but also in days Not only does the learned journals of medicine political science economics art and law barely does an edition appear without the discussion of a crisis of one sort or another within these respective fields One is tempted to remark along with Umberto Eco that crisis sells well l One is also inclined to be suspicious of the collective malaise of academics On the Duties of Philosophers Eric v.d. Luft, 2020-09-13 Shows how and why philosophy is the most important and most practical of all human endeavors because its mission is to sit in judgment of everything including itself

McIntyre, 1994 the first comprehensive anthology in the philosophy of social science to appear since the late 1960s **Derrida** Barry Stocker, 2025-09-25 Ethics in Deconstruction is vital reading for anyone interested in Derrida and the ethical implications of deconstruction broadly defined It offers a comprehensive set of essays on the ethics of deconstruction and deconstruction as an ethical enterprise Derrida is the main focus but essays also look at Sextus Empiricus Kierkegaard Heidegger Arendt Levinas Lyotard Deleuze and others This volume broadly defines ethics to include law justice politics religion and practical reason The essays explore topics including biopolitics hospitality speech and language consciousness and affection animality democracy sovereignty nationality and nationalism Enlightenment poetics responsibility economics decision theory promises the institution of ethics alterity and otherness An editor's introduction provides a unifying oversight of the multiplicity of topics and an editor's afterthought takes the discussion forward with regard to the status of moral law This volume's contents are distinctive in their wide ranging coverage of deconstruction including its boundaries and its others The reader's assumptions about deconstruction ethics and their contexts will be challenged and renewed This book is essential reading for anyone concerned with the philosophy of Derrida and the ethical possibilities of deconstruction in many forms across themes and disciplines It was originally published as a special issue of *Angelaki* **Contemporary Confucian Political**

Philosophy Stephen C. Angle, 2012-06-25 Confucian political philosophy has recently emerged as a vibrant area of thought both in China and around the globe This book provides an accessible introduction to the main perspectives and topics being debated today and shows why Progressive Confucianism is a particularly promising approach Students of political theory or contemporary politics will learn that far from being confined to a museum contemporary Confucianism is both responding to current challenges and offering insights from which we can all learn The Progressive Confucianism defended here takes key ideas of the twentieth century Confucian philosopher Mou Zongsan 1909 1995 as its point of departure for exploring issues like political authority and legitimacy the rule of law human rights civility and social justice The result is anti authoritarian

without abandoning the ideas of virtue and harmony it preserves the key values Confucians find in ritual and hierarchy without giving in to oppression or domination A central goal of the book is to present Progressive Confucianism in such a way as to make its insights manifest to non Confucians be they philosophers or simply citizens interested in the potential contributions of Chinese thinking to our emerging shared world *Primal Philosophy* Lucas Fain,2021-01-29

Primal Philosophy Rousseau with Laplanche presents the first comprehensive study of Rousseau s thought on the possibility of philosophy and the responsibility of the philosopher Through a close reading of texts from throughout Rousseau s entire corpus together with inspiration from Jean Laplanche s seminal work on the Freudian theory of seduction this book positions Rousseau within a contemporary debate involving Theodor Adorno and Alain Badiou on the fate of philosophy after Heidegger In confrontation with the radical subordination of ethics to ontology which is characteristic of Cartesian thought and its culmination in Heidegger s philosophical legacy the reading of Rousseau with Laplanche elaborates the rootedness of philosophy in a process of primal seduction which opens a way to rethink the meaning of a genuine first philosophy not as the study of being qua being in the tradition initiated by Aristotle but as primal philosophy the study of the genesis of philosophy itself The rootedness of philosophy in a process of primal seduction then reveals the primal responsibility of the philosopher a responsibility for human happiness found in the possibility of philosophy itself Concepts of Philosophy in Asia and the Islamic World Raji C. Steineck,Ralph Weber,Robert Gassmann,Elena Lange,2018-05-07

The contributions to *Concepts of Philosophy in Asia and the Islamic World* reflect upon the problems implied in the received notions of philosophy in the respective scholarly literatures They ask whether and for what reasons a text should be categorized as a philosophical text or excluded from the canon of philosophy and what this means for the concept of philosophy The focus on texts and textual corpora is central because it makes authors expose their claims and arguments in direct relation to specific sources and discourages generalized reflections on the characteristics of for example Japanese culture or the Indian mind The volume demonstrates that close and historically informed readings are the sine qua non in discussing what philosophy is in Asia and the Islamic world just as much as with regard to Western literature Contributors are Yoko Arisaka Wolfgang Behr Thomas Fr hlich Lisa Indraccolo Paulus Kaufmann Iso Kern Ralf M ller Gregor Paul Lisa Raphals Fabian Sch fer Ori Sela Rafael Suter Christian Uhl Viatcheslav Vetrov Yvonne Schulz Zinda and Nicholas Zufferey **Conscience and Cognition in Social Research** Zhang Qingxiong,2023-04-07

This book is a critical examination of the different roles of conscience and cognition in social research in China and the West exploring how the two traditions can enrich each other and help societies navigate through the complex intellectual and moral crises of our time Drawing on a rich array of primary and secondary sources this title traces the development of the Confucian conception of conscience from Confucius and Mencius to Xiong Shili and Mou Zongsan two representatives of Neo Confucianism This primacy of a moral sense is compared and contrasted with the tension within the Western culture between strains that place a premium on understanding and a deep commitment to the

search for meaning in such philosophers as Habermas and Heidegger The author explicates why such a commitment is essential to social research and how the focus on instrumental rationality that has defined modernity may be corrected by recentering the role of conscience on intellectual inquiry in general To that end both Chinese and Western cultures have plenty to offer both in terms of substantive insights and research methodologies The book will be a crucial reference for scholars and students interested in Western philosophy comparative philosophy and Chinese philosophy
