Teodoro Moscoso And Puerto Ricos Operation Bootstrap:

Teodoro Moscoso and Puerto Rico's Operation Bootstrap Alex W. Maldonado, 2020-10-26 Fascinating Maldonado's extensive interviews of Moscoso are unique and help make this a highly original work. He deserves this amount of attention as the man who next to Luis Muñoz was the dominant figure in the Puerto Rico renaissance of the 1950s. Thomas L. Hughes Carnegie Endowment for International Peace Maldonado does a superb job in presenting Teodoro Moscoso's role generally and the decisive actions he took at critical junctures in particular. Rafael de Jesús Toro, dean of business administration Interamerican University of Puerto Rico and professor of economics University of Puerto Rico. A. W. Maldonado tells the story of Puerto Rico's extraordinary climb from poverty to economic success. Operation Bootstrap, a program conceived, promoted, and implemented by Teodoro Moscoso, 1910-1992, succeeded in attracting worldwide capital investment that by the mid-1950s had transformed the island from an economic backwater into a bustling industrial society. Though much of the credit went to Puerto Rico's governor Luis Muñoz, Marín Maldonado focuses on Moscoso to describe how and why the economic miracle took place. Moscoso was deeply involved in all aspects of the Puerto Rican economy and culture, and Maldonado follows his relationships and battles on a number of fronts: from his initial differences with Rexford Tugwell, the last American governor of the island, to conflicts with Governor Muñoz who was constantly concerned that Moscoso was pushing change too quickly. In the worlds of business and culture, Maldonado shows how Moscoso employed advertising guru David Ogilvy to propagate the image of a people engaged in a cultural renaissance. He also highlights Moscoso's decisive actions at critical junctures, such as his success in pushing tax exemptions and tourism in the late 1940s and his personal persuasiveness as with Pablo Casals, who at the age of eighty was persuaded to establish his Casals Festival at San Juan. Maldonado shows that Moscoso was the architect of the economic miracle that economists and presidents believed could not happen in Puerto Rico. His account sheds new light on the man who provided U.S. administrations with a democratic success story to counter the allure of the Cuban revolution and who was called on by President John F. Kennedy to organize and head the Alliance for Progress. A. W. Maldonado, a journalist in Puerto Rico for 37 years, is a former editor of *El Mundo* and *El Reportero* and currently writes a column for the *San Juan Star*. His articles have appeared in numerous U.S. publications, including the *New York Times*, *Los Angeles Times*, *Baltimore Sun*, *Christian Science Monitor*, *Newsday*, and *The Nation*. [Luis Muñoz Marín](#). A. W. Maldonado, 2006. The book describes the most important events in Muñoz's life played out within his own internal civil wars: the transformation from a young bohemian succeeding at nothing to a political leader spearheading the campaign to convince the jíbaros not to sell their vote; the journey from an ardent independentista to a principal architect of today's Commonwealth; finally, the clash between Operation Bootstrap that lifted the island from extreme poverty through industrialization and Operation Serenity, an expression of his yearning for socialist values and humanitarian civilization. expressions of power in the post war era They were often meant to express an international and in some respects apolitical modern language but when placed in a sensitive setting or a meaningful architectural context they were highly capable of negotiating or manipulating ideological messages The agency of modern furniture was often less overt than that of political slogans or statements but as the chapters in this book reveal it had the potential of becoming a persuasive and malleable ally in very diverse politically charged arenas including embassies governmental ministries showrooms exhibitions design schools libraries museums and even prisons This collection of chapters examines the consolidating as well as the disrupting force of modern furniture in the global context between 1945 and the mid 1970s The volume shows that key to understanding this phenomenon is the study of the national as well as transnational systems through which it was launched promoted and received While some chapters squarely focus on individual furniture elements as vehicles communicating political and social meaning others consider the role of furniture within potent sites that demand careful negotiation whether between governments cultures or buyer and seller In doing so the book explicitly engages different scholarly fields design history history of interior architecture architectural history cultural history diplomatic and political history postcolonial studies tourism studies material culture studies furniture history and heritage and preservation studies Taken together the narratives and case studies compiled in this volume offer a better understanding of the political agency of post war modern furniture in its original historical context At the same time they will enrich current debates on reuse relocation or reproduction of some of these elements
