Spirits of Blood, Spirits of Breath Barbara Alice Mann,2016-01-06 Before invasion Turtle Island or North America was home to vibrant cultures that shared long standing philosophical precepts The most important and wide spread of these was the view of reality as a collaborative binary known as the Twinned Cosmos of Blood and Breath This binary system was built on the belief that neither half of the cosmos can exist without its twin Both halves are therefore necessary and good Western anthropologists typically shorthand the Twinned Cosmos as Sky and Earth but this erroneously saddles it with Christian baggage and worse imposes a hierarchy that puts sky quite literally above earth None of this Western ideology legitimately applies to traditional Indigenous American thought which is about equal cooperation and the continual recreation of reality *Spirits of Blood Spirits of Breath* examines traditional historical concepts of spirituality among North American Indians both at and to the extent it can be determined before contact In doing so Barbara Alice Mann rescues the authentically indigenous ideas from Western and especially missionary interpretations In addition to early European source material she uses Indian oral traditions traced as much as possible to their earliest versions and sources and Indian records including pictographs petroglyphs bark books and wampum Moreover Mann respects each Indigenous culture as a discrete unit rather than generalizing them as is often done in Western anthropology To this end she collates material in accordance with actual historical linguistic and traditional linkages among the groups at hand with traditions clearly identified by group and where recorded by speaker In this way she provides specialists and non specialists alike a window into the purportedly lost and often caricatured world of Indigenous American thought

Blood, Bones and Spirit Heather McDonald,2001 In this fascinating and beautifully written book Heather McDonald examines Aboriginal people s experiences of colonialism and post colonialism in the nineteenth and twentieth centuries *Blood Bones and Spirit* analyses how Aboriginal people have appropriated Biblical stories of land inheritance

expansion and loss in order to make sense of their own dispossession It investigates the embodiment of Christianity by Aboriginal people through their appropriation of Christ's body his blood bones and spirit in order to replenish and heal their own colonised bodies Indeed this local study of Christianisation in a small East Kimberley town presents a challenge to the very history and philosophy of Western religion Heather McDonald spreads out before the reader various aspects of Aboriginal Christianity the way Aborigines have assimilated Christian stories to make sense of their history and their relationships with the dominant society their understanding of what it means to be Christian their church activities and their conflicting interpretations of the Christian way of life Aboriginal Christians are repossessing the land and reclaiming a traditional earth bound world immanent spirituality These Aboriginal understandings of colonisation including missionisation and Aboriginal ways of interpreting and understanding Christianity offer a unique contribution to the reconciliation process

The Chinese Sisters of the Precious Blood and the Evolution of the Catholic Church Cindy Yik-yi Chu, 2016-11-09 This book traces the origins of the Chinese Sisters of the Precious Blood in Hong Kong and their history up to the early 1970s and contributes to the neglected area of Chinese Catholic women in the history of the Chinese Catholic Church It studies the growth of an indigenous community of Chinese sisters who acquired a formal status in the local and universal Catholic Church and the challenge of identifying Chinese Catholic women in studies dealing with the Chinese Church in the first half of the twentieth century as these women remained faceless and nameless in contrast to their Catholic male counterparts of the period Emphasizing the intertwining histories of the Hong Kong Church the churches in China and the Roman Catholic Church it demonstrates how the history of the Precious Blood Congregation throws light on the formation and development of indigenous groups of sisters in contemporary China
