The Imagined Arctic in Speculative Fiction Maria Lindgren Leavenworth, 2023-07-31 The Imagined Arctic in Speculative Fiction explores the ways in which the Arctic is imagined and what function it is made to serve in a selection of speculative fictions non mimetic works that start from the implied question What if Spanning slightly more than two centuries of speculative fiction from the starting point in Mary Shelley s 1818 Frankenstein to contemporary works that engage with the vast ramifications of anthropogenic climate change analyses demonstrate how Arctic discourses are supported or subverted and how new Arctics are added to the textual tradition To illuminate wider lines of inquiry informing the way the world is envisioned humanity s place and function in it and more than human entanglements analyses focus on the function of the actual Arctic and how this function impacts and is impacted by speculative elements With effects of climate change training the global eye on the Arctic and as debates around future northern cultural economic and environmental sustainability intensify there is a need for a deepened understanding of the discourses that have constructed and are constructing the Arctic A careful mapping and serious consideration of both past and contemporary speculative visions thus illuminate the role the Arctic has played and may come to play in a diverse set of practices and fields

Post-Apocalyptic Cultures Julia Urabayen, Jorge León Casero, 2024-03-19 This book advocates for the necessity of recovering the value of utopias as political projects that open new channels of action The criticism of modern political utopias is based on the supposed impossibility of creating for the future because there is no longer a future apocalyptic ideology However this edited collection seeks to show that the post apocalyptic world in which we live entails a renewed freedom of design for the radical reorganization of institutions Post apocalyptic cultures are not obligated to follow the capitalist anthropocentric correlationist and sovereign modes of the old political project of emancipation the Western enlightenment that has started to collapse With this in mind this book is divided into four sections dedicated to the main themes from which to rethink the projects of political emancipation that are possible nowadays technopolitics posthumanist biopolitics non western politics and the crossover between arts and politics

The Lady of Rapture Sarah Raughley, 2025-04-29 Penny Dreadful meets The Gilded Wolves in this breathtaking finale to the young adult historical fantasy Bones of Ruin trilogy For years the elite secret society called the Enlightenment Committee has waited for the apocalyptic force known as Hiva to destroy the world as it has so many times before What the Committee didn t know however was that Hiva wasn t an event it was a person Iris Marlow An African tightrope dancer with no memories of her past A girl who cannot die At least she couldn t die Until her own friends discovered her one weakness and murdered her once and for all The world ending threat she posed should be gone too but there s one more Hiva out there and unlike Iris this one has no love for humanity In her absence this Hiva has taken it upon himself to judge if humanity deserves to live But when it comes to Hivas the judgment is always the same The ending is always total destruction And while Iris is dead she s not gone and after the betrayal that

ended her life as Iris she is now out for revenge The world s days are numbered The Cataclysm has begun **Digital Games eBook** GURMEET SINGH DANG, **Post Apocalyptic Comics** Ethan Parker, AI, 2025-03-10 Post Apocalyptic Comics explores our fascination with dystopian societies and survival in the face of societal collapse as portrayed in comics and graphic novels The book examines how these narratives often dismissed as mere entertainment actually reflect our deepest cultural anxieties Comics offer a unique lens through which to examine human resilience and the moral dilemmas that arise when civilization crumbles providing a powerful commentary on our values and fears One intriguing facet is the evolution of survival strategies depicted ranging from lone wolf approaches to collaborative community building after catastrophic events The study analyzes the representation of dystopian societies and the power structures they create It also considers how these narratives function as cultural barometers reflecting anxieties related to nuclear proliferation environmental degradation and global pandemics Using a diverse range of comic books and graphic novels and balancing formal analysis with engaging writing the book progresses from introducing core concepts to exploring survival strategies dystopian representations and the ethical quandaries faced by characters Ultimately the book aims to provide a deeper understanding of the cultural significance of post apocalyptic comics and their relevance to contemporary issues *Cowboy Apocalypse* Rachel Wagner, 2025-02-25 The cowboy apocalypse is a pervasive story replayed in books film television videogames and live action role playing which blends the mythology of the American Western with doomsday prophecies in which the good guy with the gun is the messiah and God has nothing to do with the apocalypse *Media, Religion and Culture* Jeffrey H. Mahan, James H. Thrall, 2025-09-10 Religion has always been shaped by the media of its time Religious individuals communities and institutions use media as tools to communicate but also as locations where they construct and express identity practice religion and build community This lively book offers a comprehensive introduction to the contemporary field of religion media and culture It explores the religious content of media texts and the reception of those texts by religious consumers who appropriate and reuse them in their own religious work how new forms of media provide fresh locations for new religious voices and identities to emerge Thoroughly updated this second edition of *Media Religion and Culture* features case study examples from both established and new religions and each chapter is followed by insightful Reflections from leading scholars in the field Illustrated throughout the book also contains discussion questions and a glossary of key terms Culture, Cognition, Narrative Vera Nünning, Ansgar Nünning, 2025-11-14 Although it is well known that narrative impacts our modes of assessing and interpreting the world as well as the creation of cultural identities and cultural communities there is little research on the way in which cognition culture and narratives intersect Cultural narratology usually focuses on the relation between culture and narrative while cognitive narratology explores the relation between cognition and narrative However the three concepts reciprocally influence each other narratives shape cognition just as cognitive frames and processes shape narratives Similarly the culture we belong to informs our cognitive processes

and the way we perceive interpret and react to our environment Culture and narrative also impact each other in myriad ways Narratives are therefore at the centre of this volume and each chapter deals with narrative either as a cognitive or performative tool relating it to either cognition or culture or to both The volume also explores social practices of real world storytelling for instance in discourses on migration and the cognitive dimension of cultures that narratives provide access to The latter includes shared self concepts schemata and cultural models This interdisciplinary volume builds conceptual bridges between cultural studies cognitive theory and narrative theory [The Last of Us and Philosophy](#) Charles Joshua Horn, 2024-10-08 Did Joel do the right thing when he saved Ellie Are those infected by the Cordyceps conscious Are communities necessary for human survival and flourishing Should Ellie forgive Joel Is Abby's revenge morally justified Is Ellie's The Last of Us franchise includes two of the best video games ever created and the critically acclaimed HBO series Renowned for brilliant gameplay and world class narrative The Last of Us raises timeless and enduring philosophical questions Beautiful thrilling and tragic Ellie's story of survival is as philosophical as it is profound The Last of Us and Philosophy brings together an international team of philosophical experts and fans exploring the timeless questions raised by the video games and the show Drawing insights ranging from Aristotle and Abby to Buddha and Bill this book elucidates the roles that trust community love justice and hope play in The Last of Us Twenty four original essays cover both The Last of Us Part I and II and the HBO series offering accessible and nuanced philosophical analysis of Naughty Dog's amazing world Whether you're a fan of the video games or of the HBO series The Last of Us and Philosophy will take you on a philosophical journey where you look for the light **Genre Transitions in Contemporary Fiction** Selin Şencan, 2025-09-09 This volume explores how contemporary fiction responds to global challenges by reshaping genre conventions and narrative forms The book brings together twelve chapters that examine themes of identity memory history speculative imagination and survival in works that cross boundaries of form nation and discipline Contributors examine a range of contemporary concerns offering critical insights into literary innovation in the twenty first century Through close readings of a diverse group of canonical and contemporary writers the collection highlights how hybrid narrative modes enable fiction to address shifting social realities Drawing from postcolonial feminist ecocritical trauma spatial memory speculative historical decolonial and posthumanist approaches the chapters explore how genre responds to crisis transformation and the demands of contemporary thought This book will appeal to scholars of English literature cultural and literary theory and genre studies offering both global perspectives and locally grounded analyses of literary form Its wide range of genres and applied critical frameworks also makes it a valuable resource for teaching and studying contemporary fiction
