Berglund,2025-08-21 Showing how audiobooks affect literary culture this book provides new insights into reader behaviour effects of the audiobook boom and business models for digital publishing and distribution Hate Speech and the European

Court of Human Rights Natalie Alkiviadou,2025-06-30 This book argues that the European Court of Human Rights ECtHR should reconsider its approach to hate speech cases and develop a robust protection of freedom of expression as set out in the benchmark case of Handyside v the United Kingdom In that case the ECtHR determined that Article 10 of the European Convention on Human Rights ECHR safeguarding the right to freedom of expression extends protection not only to opinions which are well received but also to those deemed offensive shocking or disturbing However subsequent rulings by the Court have generated a significant amount of contradictory case law Against this backdrop this book provides an analysis of hate speech case law before the ECtHR and the now obsolete European Commission on Human Rights Through a jurisprudential analysis it is argued that these institutions have adopted an overly restrictive approach to hate speech which fails to provide adequate protection of the right to freedom of expression It also demonstrates that there are stark inconsistencies when it comes to the treatment of some forms of hate speech versus others The study further contends that in reaching its decisions on hate speech cases the Court disregards empirical evidence on matters related to free speech restrictions Viewing the ECHR as a living instrument the book places this analysis within the current state of affairs vis vis the handling of hate speech particularly online by European countries the European Union itself and social media platforms actions which the author argues are contributing to a free speech demise The book will be a valuable resource for academics researchers and policymakers working in the area of law political science European studies and sociology *Englises in a Globalized World: Exploring Contact Effects on Other Languages* Alexander Onysko,Peter Siemund,2022-11-03
