Newton Lee

Collection Instagram Club:

Facebook Nation Newton Lee, 2014-10-16 Facebook's psychological experiments and Edward Snowden's NSA leaks epitomize a world of increasing information awareness in the social media ecosystem. With over a billion monthly active users, Facebook as a nation is overtaking China as the largest country in the world. President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook. U.S. Chief Information Officer Steven VanRoekel opines that America has become a Facebook nation that demands increased transparency and interactivity from the federal government. Ubiquitous social networks such as Facebook, Google, Twitter, and YouTube are creating the technologies, infrastructures, and big data necessary for Total Information Awareness, a controversial surveillance program proposed by DARPA after the 9/11 attacks. NSA's secret PRISM program has reinvigorated WikiLeaks founder Julian Assange's accusation that Facebook is the most appalling spying machine that has ever been invented. Facebook CEO Mark Zuckerberg once said, "We exist at the intersection of technology and social issues." This book offers discourse and practical advice on the privacy issue in the age of big data, business intelligence in social media, e-government, and e-activism, as well as personal total information awareness. This expanded edition also includes insights from Wikipedian Emily Temple Wood and Facebook ROI experts Dennis Yu and Alex Hough. Social Media in Sport Gashaw Abeza, Jimmy Sanderson, 2023-12-05 This book takes a close look at social media in sport and considers its significance for sport business and for the wider relationship between sport and society. Presenting new research, case studies, and data, it examines the way people use social media, the changing art of managing social media platforms, and the theory and concepts that inform research on this important topic. Featuring the work of leading sport researchers from around the world, the book presents evidence-based analysis of contemporary topics including fan engagement, athlete activism, branding, and sponsorship strategies, sportswashing, public relations, and crisis communication. It presents case studies from sports and events such as the Olympic Games, the WNBA, professional football leagues, and Peloton, and across social media platforms including TikTok, Twitter, and Instagram. This is essential reading for anybody with an interest in sport, media, sport business, the sociology of sport, digital business, or new media studies. Now #8 Various Artists, 2020-03-25 The Eisner-nominated best anthology and best deal in comics continues with 128 full-color pages featuring entirely self-contained short stories from the best cartoonists around the globe.
