The Climate Crisis Adam Aron, 2022-12-22 Why despite all we know about the causes and harms of global

heating has so little effective action been taken to cut greenhouse gas emissions and what we can do to change that This book explains the mechanisms and impacts of the climate crisis traces the history and reasons behind the lack of serious effort to combat it describes some people s ongoing scepticism and how to shift it and motivates an urgent program of action It argues that the pathway to stopping dangerous global heating will require a much larger mobilization of advocacy and activism to impel decision makers to abandon fossil fuels and transition to renewable energy and electrification embedded in a political and social framework guided by justice principles It is an excellent resource for students and researchers on the climate crisis the need for a renewable energy transition and the current blocks to progress

Our Father Who Aren't in Heaven Robert S. Turner, 2015-03-02 The Lord s Prayer holds an honored place in the worship and devotional practices of countless Christians around the world People of every ethnic background denominational affiliation and theological leaning pray to Our Father who art in heaven But what if there s more to it than we think Our Father Who Aren t in Heaven takes a decidedly this worldly approach to the prayer and seeks to understand what Jesus meant to teach his original disciples and us through this radical manifesto of the kingdom of God In these pages Robert S Turner presents a political reading of the prayer and explores how we can encounter through it a God who has left the divine hammock empty and cast God s lot with humanity and the rest of creation A renewed understanding of the prayer may have the capacity to transform the world These subversive reflections on the Lord s Prayer may have the capacity to transform the reader as well

Wetwares Richard Doyle, 2003 The mind of the machine the body suspended in time organs exchanged thought computed genes manipulated DNA samples abducted by aliens the terrain between science and speculation fraught with the possibility of technological and perhaps even evolutionary transformations is the territory Richard Doyle explores in *Wetwares* In a manner at once sober and playful Doyle maps potentials for human transformation by new ecologies of information in the early twenty first century *Wetwares* ranges over recent research in artificial life cloning cryonics computer science organ transplantation and alien abduction Moving between actual technical practices serious speculative technology and science fiction Doyle shows us emerging scientific paradigms where life becomes more a matter of information than of inner vitality in short becomes wetwares for DNA and computer networks Viewing technologies of immortality from cryonics to artificial life as disciplines for welcoming a thoroughly other future a future of neither capital god human nor organism the book offers tools for an evolutionary transhuman mutation in the utterly unpredictable decades to come
